

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, D.C. 20549

FORM 8-K

CURRENT REPORT  
Pursuant to Section 13 OR 15(d) of  
The Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): April 5, 2022

**KNOW LABS, INC.**

(Exact name of registrant as specified in its charter)

**Nevada**  
(State of other jurisdiction  
of incorporation)

**000-30262**  
(Commission  
File Number)

**90-0273142**  
(IRS Employer  
Identification No.)

**500 Union Street, Suite 810**  
**Seattle, Washington 98101**  
(Address of principal executive office)

**(206) 903-1351**  
(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions (see General Instruction A.2. below):

- ☐ Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- ☐ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a -12)
- ☐ Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d -2(b))
- ☐ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e -4(c))

Securities registered pursuant to Section 12(b) of the Act: None

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company. ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

☐

**Item 8.01 Other Events.**

On April 5, 2022, Know Labs, Inc. a Nevada corporation (the “Company”), announced that it has been granted the following two patents:

U.S. Patent No. 11,284,819: Analyte Database Established Using Analyte Data From Non-Invasive Analyte Sensors

U.S. Patent No. 11,284,820: Analyte Database Established Using Analyte Data From A Non-Invasive Analyte Sensor

The patents were issued by the United States Patent and Trademark Office. The two patents protect the ability to create and utilize any database built with data captured through non-invasive sensors. This widens the technological gap between Know Labs and others pursuing non-invasive diagnostics, while opening up a much broader range of protection for non-invasive analyte data collection and management, beyond human health.

A copy of the press release is attached hereto as Exhibit 99.1 and is incorporated herein by reference.

**Item 9.01 Financial Statements and Exhibits.**

<b><u>Exhibit No.</u></b>	<b><u>Description</u></b>
99.1	<a href="#">Press release dated April 5, 2022</a> . Filed herewith.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Registrant: **KNOW LABS, INC.**

## **New Foundational Patents Secure Multiple Growth Opportunities for Know Labs and Its Bio-RFID™ Non-Invasive Diagnostic Technology**

SEATTLE – April 5, 2022 -- Know Labs, Inc. (OTCQB: KNWN), an emerging leader in non-invasive medical diagnostics, today announced it has been granted two new foundational patents that add significant value to its IP portfolio and proprietary Bio-RFID™ technology. The two patents protect the ability to create and utilize any database built with data captured through non-invasive sensors. This widens the technological gap between Know Labs and others pursuing non-invasive diagnostics, while opening up a much broader range of protection for non-invasive analyte data collection and management, beyond human health.

U.S. Patents 11,284,819 and 11,284,820 were issued by the United States Patent and Trademark Office and are titled “Analyte Database Established Using Analyte Data from a Non-Invasive Analyte Sensor” and “Analyte Database Established Using Analyte Data from Non-Invasive Analyte Sensors.” Both patents refer to the process of deriving an analyte database from one or multiple subjects and from one or multiple non-invasive sensors across a broad range of analytes, meaning the process of non-invasively capturing, organizing and analyzing analytes in the form of a database.

“In simple terms, this means Know Labs now controls any analyte database built with data captured through non-invasive sensors,” said Ron Erickson, Know Labs Chairman. “Our company already has foundational patents covering more than 100 different analytes that are important to a diverse set of industries. By combining these analyte patents with the newly issued database patents, we are securing new applications for Bio-RFID, which builds tremendous value for Know Labs shareholders.”

“We have successfully patented the process to accurately and non-invasively collect data, build a database from this data, and process it with AI algorithms,” said Phil Bosua, Know Labs CEO. “All of these parts are critical to launch a commercial diagnostic platform and now we control them. This further demonstrates how Know Labs and our technology have the potential to disrupt the medical diagnostic industry and potentially many others.”

Know Labs believes it will be the first company to bring an FDA-cleared non-invasive glucose monitoring device to market. The company is currently conducting a 200-person internal clinical trial of Bio-RFID, which will help Know Labs refine its algorithm and demonstrate Bio-RFID’s accuracy in a large population, while collecting additional data for a pre-submission meeting with the FDA.

“As we’ve been saying for a long time, executing a disciplined intellectual property strategy is key for our success, so we dedicate a lot of time and energy to it,” Erickson said. “We expect to be granted more patents soon and, in the meantime, remain focused on the internal clinical trial of our glucose monitoring device, which leverages the analyte database IP.”

These new patents bring Know Labs’ patent portfolio to 78 issued and pending. Know Labs will provide further detail on the scope and reach of its intellectual property portfolio as new patents are issued. ### **About Know Labs, Inc.**

Know Labs, Inc. is a public company whose shares trade under the stock symbol “KNWN.” The Company’s technology uses spectroscopy to direct electromagnetic energy through a substance or material to capture a unique molecular signature. The Company refers to its technology as Bio-RFID™. The Bio-RFID technology can be integrated into a variety of wearable, mobile or bench-top form factors. This patented and patent-pending technology makes it possible to effectively identify and monitor analyses that could only previously be performed by invasive and/or expensive and time-consuming lab-based tests. The first application of our Bio-RFID technology will be in a product marketed as a non-invasive glucose monitor. It will provide the user with real-time information on blood glucose levels. This product will require U.S. Food and Drug Administration approval prior to its introduction to the market.

### **Safe Harbor Statement**

This release contains statements that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements appear in a number of places in this release and include all statements that are not statements of historical fact regarding the intent, belief or current expectations of Know Labs, Inc., its directors or its officers with respect to, among other things: (i) financing plans; (ii) trends affecting its financial condition or results of operations; (iii) growth strategy and operating strategy; and (iv) performance of products. You can identify these statements by the use of the words “may,” “will,” “could,” “should,” “would,” “plans,” “expects,” “anticipates,” “continue,” “estimate,” “project,” “intend,” “likely,” “forecast,” “probable,” “potential,” and similar expressions and variations thereof are intended to identify forward-looking statements. Investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, many of which are beyond Know Labs, Inc.’s ability to control, and actual results may differ materially from those projected in the forward-looking statements as a result of various factors. These risks and uncertainties also include such additional risk factors as are discussed in the Company’s filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended September 30, 2020, Forms 10-Q and 8-K, and in other filings we make with the Securities and Exchange Commission from time to time. These documents are available on the SEC Filings section of the Investor Relations section of our website at [www.knowlabs.co](http://www.knowlabs.co). The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.
