Information regarding our common stock is included in the section of this prospectus entitled "Description of Securities."

We agreed to register for resale the shares covered by this prospectus as a condition to the purchase and sale of the securities listed in the preceding paragraph, which were private offerings resulting in the purchasers holding restricted securities.

The Company and our Business

We were incorporated under the laws of the State of Nevada on October 8, 1998 with authorized common stock of 200,000,000 shares at \$.001 par value. On September 13, 2002, 50,000,000 shares of preferred stock with a par value of \$.001 were authorized by the shareholders. There are no preferred shares issued and the terms have not been determined. Our executive offices are located in Seattle, Washington.

We develop low-cost, high speed, light-based security and quality control solutions for use in homeland security, anti-counterfeiting, forgery/fraud prevention, brand protection, process control applications, and diagnostics. Our patented and patent-pending technology uses controlled illumination with specific bands of light, to establish a unique spectral signature for both individual and classes of items. When matched against existing databases, these spectral signatures allow precise identification and authentication or diagnostics of any item or substance. This breakthrough optical sensing and data capture technology is called Spectral Pattern Matching (SPM). SPM technology lends itself to flexible form factors and can be miniaturized, and is easily integrated into a variety of hand-held or fixed mount configurations, and can be a stand-alone device or combined in the same package as a bar-code or biometric scanner.

On September 6, 2011, the Company announced that it was issued US Patent No. 7,996,173, entitled "Method, Apparatus and Article to Facilitate Distributed Evaluation of Objects Using Electromagnetic Energy," by the United States Office of Patents and Trademarks. Other patent applications remain pending.

Through our wholly owned subsidiary, TransTech Systems, Inc. based in Aurora, Oregon, we provide value added security and authentication solutions to corporate and government security and law enforcement markets throughout the United States.

Summary Financial Results

Net revenue for the year ended September 30, 2011 increased \$6,593,000 to \$9,136,000 as compared to \$2,543,000 for the year ended September 30, 2010. We closed the acquisition of TransTech of Aurora, OR on June 8, 2010 and recorded the results from June 8, 2010 to September 30, 2011.

Certain recent developments relating to our efforts in licensing revenues, mergers and acquisitions and generation of additional liquidity, including through sales of our common stock, are described in more detail in the notes to the financial statements included in this prospectus.

Going Concern

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. We have incurred net losses of \$ 2,395,525 and \$1,146,796 for the years ended September 30, 2011 and 2010, respectively. Our current liabilities exceeded our current assets by approximately \$3.2 million as of September 30, 2011. Our net cash used in operating activities was \$1.3 million for the year ended September 30, 2011.

As of September 30, 2011, we had \$92,313 in cash. We need to obtain additional financing to implement the business plan, service our debt repayments and acquire new businesses. However, there can be no assurance that financing or additional funding will be available to us on favorable terms or at all. If the Company raises additional capital through the sale of equity or convertible debt securities, the issuance of such securities may result in dilution to existing stockholders.

We anticipate that it will record losses from operations for the foreseeable future. As of September 30, 2011, our accumulated deficit was \$11.2 million. We have limited capital resources, and operations to date have been funded with the proceeds from private equity and debt financings. These conditions raise substantial doubt about our ability to continue as a going concern. The audit report prepared by our independent registered public accounting firm relating to our financial statements for the year ended September 30, 2011 includes an explanatory paragraph expressing the substantial doubt about our ability to continue as a going concern.

Continuation of the Company as a going concern is dependent upon obtaining additional working capital. The financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

Risks Factors

We are subject to a number of risks, which the reader should be aware of before deciding to purchase the securities in this offering. These risks are discussed in the summary below and in the section titled "Risk Factors" beginning on page 6 of this prospectus.

The Company's telephone number is (206) 903-1351 and its principal website address is located at www.visualant.net. The information on our website is not incorporated as a part of this prospectus.

The Company's Common Stock

Our common stock currently trades on the Over the Counter Bulletin Board ("OTCBB") under the symbol "VSUL."

RISK FACTORS

An investment in the Company's Common Stock involves a high degree of risk. You should carefully consider the following risk factors and other information in this prospectus before deciding to invest in shares of the Company's Common Stock. The most significant risks and uncertainties known and identified by the Company's management are described below; however, they are not the only risks that we face. If any of the following risks actually occurs, our business, financial condition, liquidity, results of operations and prospects for growth could be materially adversely affected, the trading price of our Common Stock could decline, and you may lose all or part of your investment. You should acquire shares of our Common Stock only if you can afford to lose your entire investment. We make various statements in this section that constitute "forward-looking statements" under Section 27A of the Securities Act of 1933, as amended (the "Securities Act"). See "Forward-Looking Statements" beginning on page 10 of this prospectus.

WE WILL NEED ADDITIONAL FINANCING TO SUPPORT OUR TECHNOLOGY DEVELOPMENT, ACQUIRING OR INVESTING IN NEW BUSINESSES AND ONGOING OPERATIONS.

We had cash of \$92,000, a net working capital deficit of approximately \$3.2 million and total indebtedness of \$2.6 million as of September 30, 2011.

We will need to obtain additional financing to implement the business plan, service our debt repayments and acquire new businesses. There can be no assurance that we will be able to secure funding, or that if such funding is available, the terms or conditions would be acceptable to us. If the Company is unable to obtain additional financing, we may need to restructure our operations, divest all or a portion of our business or file for bankruptcy.

Our recent efforts to generate additional liquidity, including through sales of our common stock, are described in more detail in the financial statement notes set forth in this prospectus.

If we raise additional capital through borrowing or other debt financing, we will incur substantial interest expense. Sales of additional equity securities will dilute on a pro rata basis the percentage ownership of all holders of common stock. When we raise more equity capital in the future, it will result in substantial dilution to our current stockholders.

THE SALE OF A SIGNIFICANT NUMBER OF OUR SHARES OF COMMON STOCK COULD DEPRESS THE PRICE OF OUR COMMON STOCK.

Sales or issuances of a large number of shares of common stock in the public market (including pursuant to the equity line of credit transaction that we entered into with Ascendant Capital Partners, LLC) or the perception that sales may occur could cause the market price of our common stock to decline. As of December 6, 2011, there were 53.5 million shares of common stock issued and outstanding. The Company recently registered 15,340,361 of shares of common stock for resale, including up to 11,977,714 shares of common stock that may be issued pursuant to warrants or other convertible securities. Since the effective date of the registration statement and as of December 6, 2011, 2,930,777 of the 11,977,714 shares of common stock have been issued pursuant to the convertible securities. Therefore, the amount of shares registered for resale constitutes a significant percentage of the issued and outstanding shares and the sale of all or a portion of these shares could have a negative effect on the market price of our common stock. Significant shares of common stock are held by our principal shareholders, other Company insiders and other large shareholders. As “affiliates” (as defined under Rule 144 of the Securities Act (“Rule 144”)) of the Company, our principal shareholders, other Company insiders and other large shareholders may only sell their shares of common stock in the public market pursuant to an effective registration statement or in compliance with Rule 144.

Some of the present shareholders have acquired shares at prices as low as \$0.001 per share, whereas other shareholders have purchased their shares at prices ranging from \$0.07 to \$0.75 per share.

FUTURE ISSUANCE OF COMMON STOCK RELATED TO CONVERTIBLE NOTES PAYABLE MAY HAVE A DILUTING FACTOR ON EXISTING AND FUTURE SHAREHOLDERS.

On May 19, 2011, we entered into a Securities Purchase Agreement (“Agreement”) with Gemini Master Fund, Ltd. and Ascendant Capital Partners, LLC (“Investors”) pursuant to which the Company issued \$1.2 million in principal amount of 10% convertible debentures due May 1, 2012, together with 5-year warrants to purchase 2,400,000 shares of the Company’s common stock. The purchase price for the debentures was 83.3% of the face amount, resulting in the Company receiving \$1.0 million, less legal fees, placement agent fees and expenses as set forth below.

We filed a registration statement on Form S-1, which was declared effective on August 29, 2011, to register 15,340,361 of our common stock, including (i) up to 3,600,000 shares of our common stock for Gemini issuable on conversion and 1,800,000 shares of our common stock issuable upon exercise of a warrant issued to Gemini and (ii) up to 1,200,000 shares of our common stock for Ascendant issuable on conversion and 792,000 shares of our common stock issuable upon exercise of a warrant issued to Ascendant. Since the effective date of the registration statement, 2,930,777 shares of our common stock have been issued thus far to Gemini on conversion of a portion of the convertible debentures.

The conversion of the convertible notes payable and the related warrants will likely require us to file an additional registration statement and will likely result in a dilution of the value of the our common shares for all shareholders. Dilution of the value of the common shares will likely result from such sales, which in turn could adversely affect the market price of our common stock.

RISKS ASSOCIATED WITH EQUITY LINE OF CREDIT WITH ASCENDANT

The Securities Purchase Agreement with Ascendant will terminate if our common stock is not listed on one of several specified trading markets (which include the OTCBB and Pink Sheets, among others), if we file protection from its creditors or if a Registration Statement on Form S-1 or S-3 is not effective.

If the price or the trading volume of our common stock does not reach certain levels, we will be unable to draw down all or substantially all of our \$3,000,000 equity line of credit with Ascendant.

The maximum draw down amount every 8 trading days under our equity line of credit facility is the lesser of \$100,000 or 20% of the total trading volume of our common stock for the 10-trading-day period prior to the draw down multiplied by the volume-weighted average price of our common stock for such period. If our stock price and trading volume decline from at current levels, we will not be able to draw down all \$3,000,000 available under the equity line of credit.

If we not able to draw down all \$3,000,000 available under the equity line of credit or if the Securities Purchase Agreement is terminated, we may need to restructure our operations, divest all or a portion of our business or file for bankruptcy.

WE MAY ENGAGE IN ACQUISITIONS, MERGERS, STRATEGIC ALLIANCES, JOINT VENTURES AND DIVESTITURES THAT COULD RESULT IN FINANCIAL RESULTS THAT ARE DIFFERENT THAN EXPECTED.

In the normal course of business, we engage in discussions relating to possible acquisitions, equity investments, mergers, strategic alliances, joint ventures and divestitures. Such transactions are accompanied by a number of risks, including:

- Use of significant amounts of cash,
- Potentially dilutive issuances of equity securities on potentially unfavorable terms,
- Incurrence of debt on potentially unfavorable terms as well as impairment expenses related to goodwill and amortization expenses related to other intangible assets, and

- The possibility that we may pay too much cash or issue too many of our shares as the purchase price for an acquisition relative to the economic benefits that we ultimately derive from such acquisition.

- The process of integrating any acquisition may create unforeseen operating difficulties and expenditures. The areas where we may face difficulties include:
- Diversion of management time, during the period of negotiation through closing and after closing, from its focus on operating the businesses to issues of integration,
- Decline in employee morale and retention issues resulting from changes in compensation, reporting relationships, future prospects or the direction of the business,
- The need to integrate each Company's accounting, management information, human resource and other administrative systems to permit effective management, and the lack of control if such integration is delayed or not implemented,
- The need to implement controls, procedures and policies appropriate for a public Company that may not have been in place in private companies, prior to acquisition,
- The need to incorporate acquired technology, content or rights into our products and any expenses related to such integration, and
- The need to successfully develop any acquired in-process technology to realize any value capitalized as intangible assets.

From time to time, we have also engaged in discussions with candidates regarding the potential acquisitions of our product lines, technologies and businesses. If a divestiture such as this does occur, we cannot be certain that our business, operating results and financial condition will not be materially and adversely affected. A successful divestiture depends on various factors, including our ability to:

- Effectively transfer liabilities, contracts, facilities and employees to any purchaser,
- Identify and separate the intellectual property to be divested from the intellectual property that we wish to retain,
- Reduce fixed costs previously associated with the divested assets or business, and
- Collect the proceeds from any divestitures.

In addition, if customers of the divested business do not receive the same level of service from the new owners, this may adversely affect our other businesses to the extent that these customers also purchase other products offered by us. All of these efforts require varying levels of management resources, which may divert our attention from other business operations.

If we do not realize the expected benefits or synergies of any divestiture transaction, our consolidated financial position, results of operations, cash flows and stock price could be negatively impacted.

WE MAY INCUR LOSSES IN THE FUTURE.

We have experienced net losses since inception. There can be no assurance that we will achieve or maintain profitability.

THE MARKET PRICE OF OUR COMMON STOCK MAY BE VOLATILE.

The market price of our common stock has been and is likely in the future to be volatile. Our common stock price may fluctuate in response to factors such as:

- Announcements by us regarding liquidity, significant acquisitions, equity investments and divestitures, strategic relationships, addition or loss of significant customers and contracts, capital expenditure commitments, loan, note payable and agreement defaults, loss of our subsidiaries and impairment of assets,
- Issuance of convertible or equity securities for general or merger and acquisition purposes,
- Issuance or repayment of debt, accounts payable or convertible debt for general or merger and acquisition purposes,
- Sale of a significant number of shares of our common stock by shareholders,
- General market and economic conditions,
- Quarterly variations in our operating results,
- Investor relation activities,
- Announcements of technological innovations,
- New product introductions by us or our competitors,
- Competitive activities, and
- Additions or departures of key personnel.

These broad market and industry factors may have a material adverse effect on the market price of our common stock, regardless of our actual operating performance. These factors could have a material adverse effect on our business, financial condition and results of operations.

FUTURE ISSUANCE OF STOCK OPTIONS, WARRANTS AND /OR RIGHTS MAY HAVE A DILUTING FACTOR ON EXISTING AND FUTURE SHAREHOLDERS.

The grant and exercise of stock options, warrants or rights to be issued in the future will likely result in a dilution of the value of our common shares for all shareholders. hawse have established a Combined Incentive and Non-Qualified Stock Option Plan and may in the future issue further stock options to officers, directors and consultants which will dilute the interest of the existing and future shareholders. Moreover, we may seek authorization to increase the number of its authorized shares and sell additional securities and/or rights to purchase such securities at any time in the future. Dilution of the value of the common shares will likely result from such sales, which in turn could adversely affect the market price of our common stock.

OUR CHIEF EXECUTIVE OFFICER HAS SUBSTANTIAL INFLUENCE OVER OUR COMPANY.

As of December 6, 2011, Mr. Erickson and his immediate family members, either directly or indirectly, own or control 5,256,473 shares as of the filing date or approximately 9.8% of our common stock and an additional 3,000,000 shares granted under the Stock Incentive Plan. These Controlling Shareholders have stated in a Schedule 13D that they may be deemed to constitute a "group" for the purposes of Rule 13d-3 under the Exchange Act. Mr. Ronald P. Erickson, our Chief Executive officer, controls each of our Controlling Shareholders.

This group, could cause a change of control of our board of directors, if in combination with another large shareholder elects candidates of their choice to the board at a shareholder meeting, and approve or disapprove any matter requiring stockholder approval, regardless of how our other shareholders may vote. Further, under Nevada law, the group could have a significant influence over our affairs, if in combination with another large shareholder, including the power to cause, delay or prevent a change in control or sale of the Company, which in turn could adversely affect the market price of our common stock.

TRADING IN THE COMPANY'S STOCK MAY BE RESTRICTED BY BLUE SKY ELIGIBILITY AND THE SEC'S PENNY STOCK REGULATIONS.

The SEC has adopted regulations which generally define "penny stock" to be any equity security that has a market price (as defined) less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. Under the penny stock rules, additional sales practice requirements are imposed on broker-dealers who sell to persons other than established customers and "accredited investors." The term "accredited investor" refers generally to institutions with assets in excess of \$5,000,000 or individuals with a net worth in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 jointly with their spouse. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the SEC which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction, and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the stock that is subject to broker-dealers to trade in the Company's securities.

The penny stock rules may discourage investor interest in and limit the marketability of, the Company's common stock.

Broker-dealers may receive commissions or discounts from the selling security holders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with FINRA Rule 2440; and in the case of a principal transaction a markup or markdown in compliance with FINRA IM-2440.

As it pertains to shares held by Ascendant Capital Partners, LLC, we agreed to keep this prospectus effective until the earlier of (i) the date on which the shares may be resold by Ascendant Capital Partners, LLC without registration and without regard to any volume or manner-of-sale limitations by reason of Rule 144, without the requirement for the Company to be in compliance with the current public information under Rule 144 under the Securities Act or any other rule of similar effect or (ii) all of the shares have been sold pursuant to this prospectus or Rule 144 under the Securities Act or any other rule of similar effect. BUSINESS

The Company and our Business

We were incorporated under the laws of the State of Nevada on October 8, 1998 with authorized common stock of 200,000,000 shares at \$0.001 par value. On September 13, 2002, 50,000,000 shares of preferred stock with a par value of \$0.001 were authorized by the shareholders. There are no preferred shares issued and the terms have not been determined. Our executive offices are located in Seattle, Washington.

We develop low-cost, high speed, light-based security and quality control solutions for use in homeland security, anti-counterfeiting, forgery/fraud prevention, brand protection, process control applications, and diagnostics. Our patented and patent-pending technology uses controlled illumination with specific bands of light, to establish a unique spectral signature for both individual and classes of items. When matched against existing databases, these spectral signatures allow precise identification and authentication or diagnostics of any item or substance. This breakthrough optical sensing and data capture technology is called Spectral Pattern Matching (SPM). SPM technology lends itself to flexible form factors and can be miniaturized, and is easily integrated into a variety of hand-held or fixed mount configurations, and can be a stand-alone device or combined in the same package as a bar-code or biometric scanner.

On September 6, 2011, the Company announced that it was issued US Patent No. 7,996,173, entitled "Method, Apparatus and Article to Facilitate Distributed Evaluation of Objects Using Electromagnetic Energy," by the United States Office of Patents and Trademarks. Other patent applications remain pending.

Through our wholly owned subsidiary, TransTech Systems, Inc. based in Aurora, Oregon, we provide value added security and authentication solutions to corporate and government security and law enforcement markets throughout the United States.

Financial Results

Net revenue for the year ended September 30, 2011 increased \$6,593,000 to \$9,136,000 as compared to \$2,543,000 for the year ended September 30, 2010. We closed the acquisition of TransTech of Aurora, OR on June 8, 2010 and recorded the results from June 8, 2010 to September 30, 2011.

Certain recent developments relating to our efforts in licensing revenues, mergers and acquisitions and generation of additional liquidity, including through sales of our common stock, are described in more detail in the notes to the financial statements included in this prospectus.

ACQUISITION OF TRANSTECH

We closed the acquisition of TransTech of Aurora, OR on June 8, 2010 and recorded the financial results of the acquisition from June 8, 2010 to June 30, 2011 in our most recent financial statements.

TransTech, founded in 1994, is a distributor of access control and authentication systems serving the security and law enforcement markets. With recorded revenues of \$10 million in 2009, TransTech has a respected national reputation for outstanding product knowledge, sales and service excellence.

This acquisition is expected to accelerate market entry and penetration through the acquisition of well-operated and positioned distributors of security and authentication systems like TransTech, thus creating a natural distribution channel for products featuring our proprietary SPM technology.

Our strategy for the next 18 to 24 months is to generate substantially increased revenues through the further acquisition of other high quality companies complementary to TransTech, growth of TransTech and the sale and license of SPM products.

LICENSE AGREEMENT WITH JAVELIN

On January 3, 2011, we signed a Commercial License Agreement ("License Agreement") with Seattle based Javelin for development of environmental diagnostic applications of our SPM technology.

The License Agreement, which is exclusive for environmental applications, is perpetual and lasts until the Visualant IP expires. It provides for payments of 5% of Javelin's revenues, a royalty of \$15,000 in year one (which was prepaid) and increasing to \$47,407 in year five and profit sharing of 25% of license or transfer of technology. Javelin has certain performance milestones by year 2 and 3. The License Agreement can be terminated by Visualant for failure of Javelin to meet the performance milestones and by Javelin with thirty days' notice.

ACQUISITION OF RATLAB

On June 7, 2011, we closed the acquisition of all Visualant related assets of the RATLab LLC ("RATLab").

The RATLab is a Seattle based research and development laboratory created by Dr. Tom Furness, founder and Director of the HITLab International, with labs at Seattle, University of Canterbury in New Zealand, and the University of Tasmania in Australia. Guided by Dr. Tom Furness and Dr. Brian Schowengerdt, a research scientist in the field of optics and vision science, who developed the Spectral Pattern Matching (“SPM”) technology under contract for Visualant.

With this acquisition, we have consolidated all intellectual property relating to the SPM technology. In addition to its current authentication and security applications of SPM, the Company will now own all other applications including the important fields of medicine, agriculture, and the environment and begin the creation of the Visualant Laboratory.

Following this asset acquisition transaction, Dr. Tom Furness and Dr. Brian Schowengerdt will continue to provide technology leadership to us, under terms that are still being negotiated.

Eagle, founded by card industry leaders Greg and Ryan Hawkins and Jeff Fulmer in 2008, has rapidly emerged as a premier provider of blank PVC and polyester composite cards to the identification market. If this acquisition is completed as anticipated, it is hoped that Eagle will provide an immediate additional \$1 million in annual revenue to Visualant and is projected to grow to \$3 to \$4 million in revenues over the next two years as Eagle increases the range and technical sophistication of its product line.

If this acquisition is completed, we will continue with its strategic initiative to consolidate relevant security and authentication assets. At the same time, we will provide Eagle and its management the human and capital resources necessary to rapidly accelerate its growth. Upon the closing of this acquisition, the Eagle team will continue to manage Eagle with full profit and loss responsibility.

Visualant’s agreement to sell shares each month during said 12-month period is subject to certain conditions and limitations. With respect to each subsequent closing, Visualant will not be obligated to sell any of its common stock to Seaside at a price lower than \$0.25 per share, and Seaside’s beneficial ownership of the Company’s common stock will not exceed 9.9%. Visualant also has agreed to pay 7.0% in finder’s fees to brokers (to be paid in connection with each draw down) and issue common stock warrants.

The Agreement may be terminated by Seaside upon written notice to the Company, if at any time prior to the final subsequent closing the Company consummates a financing to which Seaside is not a party.

The Agreement also contains certain representations and warranties of Visualant and Seaside, including customary investment-related representations provided by Seaside, as well as acknowledgements by Seaside that it has reviewed certain disclosures of the Company (including the periodic reports that the Company has filed with the SEC) and that the Company's issuance of the shares has not been registered with the SEC or qualified under any state securities laws. Industry Overview

Visualant's SPM technology resides in the general marketplace for spectroscopy (measurement of light according to its spectrum) and spectrometry (the measurement of the chemical or atomic components as a function of light reflected or absorbed by them). These analytic tools are typically fragile and expensive often costing tens or hundreds of thousands of dollars. The Visualant SPM technology is flexible, sturdy and has a very low cost.

The Visualant SPM technology can be used to create low cost, ubiquitous analytic devices that can be used in numerous applications in the broad security and authentication market. There is no room for error in security and authentication, hence the industry requires layers of redundancies in order to provide hoped for failsafe security. The security and authentication industry uses numerous tools in its pursuit of security. These include RFID chips and holograms for access control cards, threads and holograms in currency, and other means of marking to thwart counterfeiting. Visualant SPM technology provides a level of redundancy without the addition of any specific marking. The SPM technology simply sees the colors present and determines the accuracy of those colors against the prescribed standard. In this case, Visualant SPM technology exists in the broad industry of component providing solutions for security and authentication.

TransTech, our wholly-owned subsidiary, is a security and authentication distribution company selling products to over 500 dealers in the United States. TransTech's products include a variety of security and authentication products including printers, access control devices and numerous components. Distribution is fragmented in the security and authentication marketplace. There are large companies, including Scan Source Security, Wynit, Inc. and Plasco ID, who increasingly sell directly to customers via the Internet and smaller regional and national distributors who sell to these same customers and provide value added services and support. Often called value added resellers or VARs, distributors such as TransTech work hard to maintain their customers through service and support.

Employees

As of December 6, 2011 we had thirteen full-time, three part-time employees and four contractors. Most employees were based in Oregon.

Liquidity and Capital Resources

As of September 30, 2011

We had cash of \$92,000, a net working capital deficit of approximately \$3.2 million and total indebtedness of \$2.6 million as of September 30, 2011.

We will need to obtain additional financing to implement the business plan, service our debt repayments and acquire new businesses. There can be no assurance that we will be able to secure funding, or that if such funding is available, whether the terms or conditions would be acceptable to us.

Volatility and disruption of financial markets could affect our access to credit. The current difficult economic market environment is causing contraction in the availability of credit in the marketplace. This could potentially reduce or eliminate the sources of liquidity for the Company.

If the Company is unable to obtain additional financing, we may need to restructure our operations, divest all or a portion of our business or file for bankruptcy.

The Gingo Agreement has a three year term beginning on June 8, 2010 at the annual base salary of \$200,000 per year. The Gingo Agreement provides for participation in the Company's benefit programs available to other employees (including group insurance arrangements). Also under the Gingo Agreement, Mr. Gingo is eligible for discretionary performance bonuses based upon performance criteria to be determined by the Company's Compensation Committee based on criteria under development up to 50% of his annual salary. If Mr. Gingo's employment is terminated without Cause (as defined in the Gingo Agreement), Mr. Gingo will be entitled to a payment equal to one year's annual base salary paid over the next year.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth certain information regarding the ownership of our common stock as of December 6, 2011 by:

- each director and nominee for director;
- each person known by us to own beneficially 5% or more of our common stock;
- each officer named in the summary compensation table elsewhere in this report; and
- all directors and executive officers as a group.

The amounts and percentages of common stock beneficially owned are reported on the basis of regulations of the SEC governing the determination of beneficial ownership of securities. Under the rules of the SEC, a person is deemed to be a "beneficial owner" of a security if that person has or shares voting power," which includes the power to vote or to direct the voting of such security, or "investment power," which includes the power to dispose of or to direct the disposition of such security. A person is also deemed to be a beneficial owner of any securities of which that person has the right to acquire beneficial ownership within 60 days. Under these rules more than one person may be deemed a beneficial owner of the same securities and a person may be deemed to be a beneficial owner of securities as to which such person has no economic interest.

Unless otherwise indicated below, each beneficial owner named in the table has sole voting and sole investment power with respect to all shares beneficially owned, subject to community property laws where applicable. The address of each beneficial owner of more than 5% of common stock is as follows:

CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

There are not and have not been any disagreements between us and our accountants on any matter of accounting principles, practices, or financial statement disclosure during our two most recent fiscal years and subsequent interim period.

DISCLOSURE OF COMMISSION POSITION ON INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Under Nevada law, a corporation may include in its articles of incorporation (“Articles”) a provision that eliminates or limits the personal liability of a director to the corporation or its stockholders for monetary damages for breach of fiduciary duties as a director, but no such provision may eliminate or limit the liability of a director (a) for any breach of his fiduciary duty as a director, (b) for acts or omissions not in good faith or that involve intentional misconduct, fraud or a knowing violation of law, (c) for conduct violating the Nevada General Corporation Law, or (d) for any transaction from which the director will personally receive a benefit in money, property or services to which the director is not legally entitled.

Section 78.7502 of the Nevada Revised Statutes (“NRS”) provides, in general, that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, except an action by or in the right of the corporation, by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses, including attorneys’ fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with the action, suit or proceeding if the person acted in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe the conduct was unlawful.

NRS Section 78.4502 also provides, in general, that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses, including amounts paid in settlement and attorneys’ fees actually and reasonably incurred by the person in connection with the defense or settlement of the action or suit if the person acted in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the corporation; provided, however, that indemnification may not be made for any claim, issue or matter as to which such a person has been adjudged by a court of competent jurisdiction, after exhaustion of all appeals therefrom, to be liable to the corporation or for amounts paid in settlement to the corporation, unless and only to the extent that the court in which the action or suit was brought or other court of competent jurisdiction determines upon application that in view of all the circumstances of the case, the person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

Any indemnification pursuant to the above provisions may be made by the corporation only as authorized in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances. The determination must be made: (a) by the stockholders; (b) by the Board of Directors by majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding; (c) if a majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding so orders, by independent legal counsel in a written opinion; or (d) if a quorum consisting of directors who were not parties to the action, suit or proceeding cannot be obtained, by independent legal counsel in a written opinion.

Under Articles IX and X of the Registrant’s Amended and Restated Articles of Incorporation, the personal liability of all its directors and officers is eliminated to the fullest extent allowed by Nevada law. In addition, a director shall not be personally liable to the corporation or its stockholders for monetary damages for conduct as a director, except for liability (a) for acts or omissions that involve intentional misconduct or a knowing violation of law; (b) for conducting violating the Nevada General Corporation Law; or (c) for any transaction from which the director will personally receive a benefit in money, property or services to which the director is not legally entitled.

Article X also provides that the corporation also may purchase and maintain insurance or make other financial arrangements on behalf of any director, officer, agent or employee of the corporation, for any liability asserted against him and for expenses incurred by him in his capacity as a director, officer, employee or agent, arising out of his status as such, whether or not the corporation has the authority to indemnify him against such liability and expenses.

The Registrant currently has a directors’ and officers’ liability insurance policy in place pursuant to which its directors and officers are insured against certain liabilities, including certain liabilities under the Securities Act of 1933, as amended (“Securities Act”) and the Securities and Exchange Act of 1934, as amended (“Exchange Act”).

Insofar as indemnification for liabilities arising out of the Securities Act may be permitted to directors, officers or persons controlling the Company pursuant to the provisions described above, the Company has been informed that, in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We have audited the accompanying balance sheets of Visualant, Incorporated and subsidiaries. as of September 30, 2011 and 2010 and the related statements of operations, stockholders' equity, and cash flows for each of the years in the three-year period ended September 30, 2011. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Visualant, Incorporated and subsidiaries as of September 30, 2011 and 2010 and the results of operations, and cash flows for each of the years in the three-year period ended September 30, 2011, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company will need additional working capital for its planned activity and to service its debt, which raises substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are described in the notes to the financial statements. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

VISUALANT, INCORPORATED AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. ORGANIZATION

Visualant, Inc. (the "Company") was incorporated under the laws of the State of Nevada on October 8, 1998 with authorized common stock of 200,000,000 shares at \$0.001 par value. On September 13, 2002, 50,000,000 shares of preferred stock with a par value of \$0.001 were authorized by the shareholders. There are no preferred shares issued and the terms have not been determined.

The Company closed the acquisition of TransTech of Aurora, Oregon on June 8, 2010 and recorded the results from June 8, 2010 to September 30, 2011. As of June 8, 2010, the Company is no longer in the development stage.

This acquisition is expected to accelerate market entry and penetration through the acquisition of well-operated and positioned distributors of security and authentication systems like TransTech, thus creating a natural distribution channel for products featuring our proprietary Spectrum Pattern Matching ("SPM") technology.

2. GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has incurred net losses of \$ 2,395,525 and \$1,146,796 for the years ended September 30, 2011 and 2010, respectively. Our current liabilities exceeded our current assets by approximately \$3.2 million as of September 30, 2011. Our net cash used in operating activities was \$1.3 million for the year ended September 30, 2011.

As of September 30, 2011, the Company had \$92,313 in cash. The Company needs to obtain additional financing to implement the business plan, service our debt repayments and acquire new businesses.. However, there can be no assurance that financing or additional funding will be available to the Company on favorable terms or at all. If the Company raises additional capital through the sale of equity or convertible debt securities, the issuance of such securities may result in dilution to existing stockholders.

The Company anticipates that it will record losses from operations for the foreseeable future. As of September 30, 2011, our accumulated deficit was \$11.2 million. The Company has limited capital resources, and operations to date have been funded with the proceeds from private equity and debt financings. These conditions raise substantial doubt about our ability to continue as a going concern. The audit report prepared by our independent registered public accounting firm relating to our financial statements for the year ended September 30, 2011 includes an explanatory paragraph expressing the substantial doubt about our ability to continue as a going concern.

Continuation of the Company as a going concern is dependent upon obtaining additional working capital. The financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

3. SIGNIFICANT ACCOUNTING POLICIES: ADOPTION OF ACCOUNTING STANDARDS

PRINCIPLES OF CONSOLIDATION - The consolidated financial statements include the accounts of the Company and its wholly owned and majority-owned subsidiaries. Inter-Company items and transactions have been eliminated in consolidation.

CASH AND CASH EQUIVALENTS - The Company classifies highly liquid temporary investments with an original maturity of three months or less when purchased as cash equivalents. The Company maintains cash balances at various financial institutions. Balances at US banks are insured by the Federal Deposit Insurance Corporation up to \$250,000. Beginning December 31, 2010 and through December 31, 2012, all noninterest-bearing transaction accounts are fully insured, regardless of the balance of the account, at all FDIC-insured institutions. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant risk for cash on deposit. As of September 30, 2011, the Company had no uninsured cash amounts.

ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS - Accounts receivable consists primarily of amounts due to the Company from normal business activities. The Company maintains an allowance for doubtful accounts to reflect the expected non-collection of accounts receivable based on past collection history and specific risks identified within the portfolio. If the financial condition of the customers were to deteriorate resulting in an impairment of their ability to make payments, or if payments from customers are significantly delayed, additional allowances might be required.

INVENTORIES - Inventories consist primarily of printers and consumable supplies, including ribbons and cards, badge accessories, capture devices, and access control components held for resale and are stated at the lower of cost or market on the first-in, first-out ("FIFO") method. Inventories are considered available for resale when drop shipped and invoiced directly to a customer from a vendor, or when physically received by TransTech at a warehouse location. The company records a provision for excess and obsolete inventory whenever an impairment has been identified. There is no provision for impaired inventory as of September 30, 2011 and 2010.

EQUIPMENT - Equipment consists of machinery, leasehold improvements, furniture and fixtures and software, which are stated at cost less accumulated depreciation and amortization. Depreciation is computed by the straight-line method over the estimated useful lives or lease period of the relevant asset, generally 3-10 years, except for leasehold improvements which are depreciated over 20 years.

INTANGIBLE ASSETS / INTELLECTUAL PROPERTY - The Company amortizes the intangible assets and intellectual property acquired in connection with the acquisition of TransTech, over sixty months on a straight - line basis, which was the time frame that the management of the Company was able to project forward for future revenue, either under agreement or through expected continued business activities. Intangible assets and intellectual property acquired from RATLab are recorded likewise.

GOODWILL – Goodwill is the excess of cost of an acquired entity over the fair value of amounts assigned to assets acquired and liabilities assumed in a business combination. With the adoption of ASC 350, goodwill is not amortized, rather it is tested for impairment annually, and will be tested for impairment between annual tests if an event occurs or circumstances change that would indicate the carrying amount may be impaired. Impairment testing for goodwill is done at a reporting unit level. Reporting units are one level below the business segment level, but are combined when reporting units within the same segment have similar economic characteristics. Under the criteria set forth by ASC 350, the Company has one reporting unit based on the current structure. An impairment loss generally would be recognized when the carrying amount of the reporting unit's net assets exceeds the estimated fair value of the reporting unit. The Company performs annual assessments and has determined that no impairment is necessary.

LONG-LIVED ASSETS - The Company reviews its long-lived assets for impairment when changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Long-lived assets under certain circumstances are reported at the lower of carrying amount or fair value. Assets to be disposed of and assets not expected to provide any future service potential to the Company are recorded at the lower of carrying amount or fair value (less the projected cost associated with selling the asset). To the extent carrying values exceed fair values, an impairment loss is recognized in operating results.

FAIR VALUE OF FINANCIAL INSTRUMENTS - The Company has adopted FASB Accounting Standards Codification ("ASC") Topic 820, "Fair Value Measurements", for assets and liabilities measured at fair value on a recurring basis. Topic 820 establishes a common definition for fair value to be applied to existing generally accepted accounting principles that require the use of fair value measurements, establishes a framework for measuring fair value and expands disclosure about such fair value measurements. Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Additionally, Topic 820 requires the use of valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized below:

Level 1: Observable inputs such as quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data

Level 3: Unobservable inputs for which there is little or no market data, which require the use of the reporting entity's own assumptions.

All cash and cash equivalents include money market securities and commercial paper that are considered to be highly liquid and easily tradable as of September 30, 2011. These securities are valued using inputs observable in active markets for identical securities and are therefore classified as Level 1 within our fair value hierarchy.

The carrying amounts of the Company's financial assets and liabilities, such as cash, accounts receivable, inventory, accounts payable, taxes payable, accrued expenses and other current liabilities, approximate their fair values because of the short maturity of these instruments. The Company's notes payable approximates the fair value of such instruments based upon management's best estimate of interest rates that would be available to the Company for a similar financial arrangement at September 30, 2011.

In addition, Topic 820 expands opportunities to use fair value measurements in financial reporting and permits entities to choose to measure many financial instruments and certain other items at fair value. The Company did not elect the fair value option for any of its qualifying financial instruments.

REVENUE RECOGNITION – TransTech revenue is derived from other products and services. Revenue is considered realized when the services have been provided to the customer, the work has been accepted by the customer and collectability is reasonably assured. Furthermore, if an actual measurement of revenue cannot be determined, we defer all revenue recognition until such time that an actual measurement can be determined. If during the course of a contract management determines that losses are expected to be incurred, such costs are charged to operations in the period such losses are determined. Revenues are deferred when cash has been received from the customer but the revenue has not been earned. The Company recorded deferred revenue of \$0 as of September 30, 2011 and 2010, respectively.

ADVERTISING COSTS - Advertising costs are expensed as incurred. Such costs generally consist of major industry trade shows cooperatively with vendors and some advertising in industry publications. Advertising costs were insignificant during the years ended September 30, 2011 and 2010.

STOCK BASED COMPENSATION - The Company has share-based compensation plans under which employees, consultants, suppliers and directors may be granted restricted stock, as well as options to purchase shares of Company common stock at the fair market value at the time of grant. Stock-based compensation cost is measured by the Company at the grant date, based on the fair value of the award, over the requisite service period. For options issued to employees, the Company recognizes stock compensation costs utilizing the fair value methodology over the related period of benefit. Grants of stock options and stock to non-employees and other parties are accounted for in accordance with the ASC 505.

When stock options are granted, the fair value of each option grant is estimated on the date of grant using the Black-Scholes valuation model and the weighted assumptions noted in the following table:

	For the Years Ended September 30,	
	2011	2010
Risk-free interest rate	3.34%	3.34%
Expected life	7.53 years	9.29 years
Dividend rate	0.00%	0.00%
Expected volatility	259%	259%

INCOME TAXES - Income tax benefit is based on reported loss before income taxes. Deferred income taxes reflect the effect of temporary differences between asset and liability amounts that are recognized for financial reporting purposes and the amounts that are recognized for income tax purposes. These deferred taxes are measured by applying currently enacted tax laws where that company operates out of. The Company recognizes refundable and deferred assets to the extent that management has determined their realization. As of September 30, 2011 and 2010, the Company had refundable tax assets related to TransTech of \$9,080 and \$8,581, respectively.

NET LOSS PER SHARE – Under the provisions of ASC 260, “Earnings Per Share,” basic loss per common share is computed by dividing net loss available to common shareholders by the weighted average number of shares of common stock outstanding for the periods presented. Diluted net loss per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that would then share in the income of the Company, subject to anti-dilution limitations. The common stock equivalents have not been included as they are anti-dilutive. As of September 30, 2011, there were options outstanding for the purchase of 6,920,000 common shares, warrants for the purchase of 4,377,050 common shares, an undetermined number shares of common stock related to convertible debt, which could potentially dilute future earnings per share. As of September 30, 2010, there were options outstanding for the purchase of 4,735,000 common shares, warrants for the purchase of 1,133,333 common shares, 1,666,667 shares of common stock related to convertible debt, which could potentially dilute future earnings per share.

DIVIDEND POLICY - The Company has never paid any cash dividends and intends, for the foreseeable future, to retain any future earnings for the development of our business. Our future dividend policy will be determined by the board of directors on the basis of various factors, including our results of operations, financial condition, capital requirements and investment opportunities.

USE OF ESTIMATES - The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECLASSIFICATION - Certain reclassifications have been made to the Company’s financial statements for prior periods to conform to the current presentation. These reclassifications had no effect on previously reported results of operations or retained earnings.

RECENT ACCOUNTING PRONOUNCEMENTS

Recent accounting pronouncements applicable to the Company are summarized below.

In April 2010, the FASB issued Accounting Standard Update ("ASU") 2010-13, Compensation-Stock Compensation (Topic 718): Effect of Denominating the Exercise Price of a Share-Based Payment Award in the Currency of the Market in Which the Underlying Equity Security Trades - a consensus of the FASB Emerging Issues Task Force. The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010. Earlier application is permitted. The Company does not expect the provisions of ASU 2010-13 to have a material effect on the financial position, results of operations or cash flows of the Company. In March 2010, the FASB issued ASU No.2010-11, which is included in the Certification under ASC 815. This update clarifies the type of embedded credit derivative that is exempt from embedded derivative bifurcation requirements. Only an embedded credit derivative that is related to the subordination of one financial instrument to another qualifies for the exemption. This guidance became effective for the Company's interim and annual reporting periods beginning January 1, 2010. The adoption of this guidance did not have a material impact on the Company's financial statements.

A variety of proposed or otherwise potential accounting standards are currently under study by standard setting organizations and various regulatory agencies. Due to the tentative and preliminary nature of those proposed standards, management has not determined whether implementation of such proposed standards would be material to our consolidated financial statements.

4. DEVELOPMENT OF SPECTRUM PATTERN MATCHING TECHNOLOGY

The Company develops low-cost, high speed, light-based security and quality control solutions for use in homeland security, anti-counterfeiting, forgery/fraud prevention, brand protection and process control applications. Its patent-pending technology uses controlled illumination with specific bands of light, to establish a unique spectral signature for both individual and classes of items. When matched against existing databases, these spectral signatures allow precise identification and authentication of any item or substance. This breakthrough optical sensing and data capture technology is called SPM. SPM technology can be miniaturized and is easily integrated into a variety of hand-held or fixed mount configurations, and can be combined in the same package as a bar-code or biometric scanner.

After years of development, on September 6, 2011, the Company announced that we were issued US Patent No. 7,996,173, entitled "Method, Apparatus and Article to Facilitate Distributed Evaluation of Objects Using Electromagnetic Energy," by the United States Office of Patents and Trademarks. This is the Company's first patent covering our SPM technology. The Company is pursuing an aggressive patent strategy to expand our unique intellectual property. As of November 29, 2011, the Company had four family patent applications filed with the U.S. Patent Office and one patent pending in Japan.

LICENSE AGREEMENT WITH JAVELIN LLC

On January 3, 2011, the Company signed a Commercial License Agreement ("License Agreement") with Seattle based Javelin for development of environmental diagnostic applications of its SPM technology.

The License Agreement, which is exclusive for environmental applications, is perpetual and lasts until the Visualant IP expires. It provides for payments of 5% of Javelin's revenues, a royalty of \$15,000 in year one (which was prepaid) and increasing to \$47,407 in year five and profit sharing of 25% of license or transfer of technology. Javelin has certain performance milestones by year 2 and 3. The License Agreement can be terminated by Visualant for failure of Javelin to meet the performance milestones and by Javelin with thirty days notice.

ACQUISITION OF RATLab

On June 7, 2011, the Company closed the acquisition of all Visualant related assets of the RATLab LLC.

The RATLab is a Seattle based research and development laboratory created by Dr. Tom Furness, founder and Director of the HITLab International, with labs at Seattle, University of Canterbury in New Zealand, and the University of Tasmania in Australia.

Guided by Dr. Tom Furness and Dr. Brian Schowengerdt, a research scientist in the field of optics and vision science, who developed the Spectral Pattern Matching ("SPM") technology under contract for Visualant.

With this acquisition, the Company will consolidate all intellectual property relating to the SPM technology. In addition to its current authentication and security applications of SPM, the Company will now own all other applications including the important fields of medicine, agriculture, and the environment and begin the creation of the Visualant Laboratory.

Upon the closing of this asset acquisition transaction, Dr. Tom Furness and Dr. Brian Schowengerdt will continue to provide technology leadership to us, under terms that are still subject to negotiation.

The Company acquired the Visualant related assets of the RATLab for the following:

- a. One million shares (1,000,000) of our common stock at closing valued at twenty cents (\$0.20) per share, the price during the negotiation of this agreement.

- b. Two hundred and fifty thousand dollars (\$250,000), with one hundred thousand dollars (\$100,000) payable at closing and one hundred and fifty thousand dollars (\$150,000) to be paid no later than the first anniversary of closing.
- c. The outstanding promissory note owing to Tom Furness in the amount of \$65,000 with accrued interest of \$24,675 was paid at closing.

PROPOSED ACQUISITION OF EAGLE

On June 27, 2011, the Company announced that it signed a new Letter of Intent to Eagle (www.eagletechnologiesusa.com) of Brea, California.

On September 15, 2011, the Company announced that it had signed an amendment to the Letter of Intent, extending the closing date to December 31, 2011.

The shares shall be distributed at the sole discretion of the ownership and senior management of Eagle.

The letter of intent is subject to (i) approval of the acquisition by the Board of Visualant and Eagle; (ii) completion of due diligence; and (iii) agreement to customary terms and conditions; and resolution of outstanding litigation. The acquisition is expected to close by August 30, 2011.

Since the effective date of the registration statement, 2,930,777 shares of our common stock have been issued thus far to Gemini on conversion of a portion of the convertible debentures.

The conversion of the convertible notes payable and the related warrants will likely require the Company to file an additional registration statement and will likely result in a dilution of the value of the our common shares for all shareholders.

The Agreement may be terminated by the Investors under certain conditions. The Agreement also contains certain representations and warranties of Visualant and the Investors, including customary investment-related representations provided by the Investors, as well as acknowledgements by the Investors that it has reviewed certain disclosures of the Company (including the periodic reports that the Company has filed with the SEC) and that the Company's issuance of the shares has not been registered with the SEC or qualified under any state securities laws. We provided customary representations regarding, among other things, its organization, capital structure, subsidiaries, disclosure reports, absence of certain legal or governmental proceedings, financial statements, tax matters, insurance matters, real property and other assets, and compliance with applicable laws and regulations. The Investor's representations and warranties are qualified in their entirety (to the extent applicable) by the Company's disclosures in the reports it files with the SEC. Determining Fair Value Under ASC 505

The Company records compensation expense associated with stock options and other equity-based compensation using the Black-Scholes-Merton option valuation model for estimating fair value of stock options granted under our plan. The Company amortizes the fair value of stock options on a ratable basis over the requisite service periods, which are generally the vesting periods. The expected life of awards granted represents the period of time that they are expected to be outstanding. The Company estimates the volatility of our common stock based on the historical volatility of its own common stock over the most recent period corresponding with the estimated expected life of the award. The Company bases the risk-free interest rate used in the Black-Scholes-Merton option valuation model on the implied yield currently available on U.S. Treasury zero-coupon issues with an equivalent remaining term equal to the expected life of the award. The Company has not paid any cash dividends on our common stock and do not anticipate paying any cash dividends in the foreseeable future. Consequently, the Company uses an expected dividend yield of zero in the Black-Scholes-Merton option valuation model and adjust share-based compensation for changes to the estimate of expected equity award forfeitures based on actual forfeiture experience. The effect of adjusting the forfeiture rate is recognized in the period the forfeiture estimate is changed.

Under Nevada law, a corporation may include in its articles of incorporation ("Articles") a provision that eliminates or limits the personal liability of a director to the corporation or its stockholders for monetary damages for breach of fiduciary duties as a director, but no such provision may eliminate or limit the liability of a director (a) for any breach of his fiduciary duty as a director, (b) for acts or omissions not in good faith or that involve intentional misconduct, fraud or a knowing violation of law, (c) for conduct violating the Nevada General Corporation Law, or (d) for any transaction from which the director will personally receive a benefit in money, property or services to which the director is not legally entitled.

Section 78.7502 of the Nevada Revised Statutes ("NRS") provides, in general, that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, except an action by or in the right of the corporation, by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with the action, suit or proceeding if the person acted in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe the conduct was unlawful.

NRS Section 78.4502 also provides, in general, that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses, including amounts paid in settlement and attorneys' fees actually and reasonably incurred by the person in connection with the defense or settlement of the action or suit if the person acted in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the corporation; provided, however, that indemnification may not be made for any claim, issue or matter as to which such a person has been adjudged by a court of competent jurisdiction, after exhaustion of all appeals therefrom, to be liable to the corporation or for amounts paid in settlement to the corporation, unless and only to the extent that the court in which the action or suit was brought or other court of competent jurisdiction determines upon application that in view of all the circumstances of the case, the person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

Any indemnification pursuant to the above provisions may be made by the corporation only as authorized in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances. The determination must be made: (a) by the stockholders; (b) by the Board of Directors by majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding; (c) if a majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding so orders, by independent legal counsel in a written opinion; or (d) if a quorum consisting of directors who were not parties to the action, suit or proceeding cannot be obtained, by independent legal counsel in a written opinion.

Under Articles IX and X of the Registrant's Amended and Restated Articles of Incorporation, the personal liability of all its directors and officers is eliminated to the fullest extent allowed by Nevada law. In addition, a director shall not be personally liable to the corporation or its stockholders for monetary damages for conduct as a director, except for liability (a) for acts or omissions that involve intentional misconduct or a knowing violation of law; (b) for conducting violating the Nevada General Corporation Law; or (c) for any transaction from which the director will personally receive a benefit in money, property or services to which the director is not legally entitled.

Article X also provides that the corporation also may purchase and maintain insurance or make other financial arrangements on behalf of any director, officer, agent or employee of the corporation, for any liability asserted against him and for expenses incurred by him in his capacity as a director, officer, employee or agent, arising out of his status as such, whether or not the corporation has the authority to indemnify him against such liability and expenses.

The Registrant has a directors' and officers' liability insurance policy in place pursuant to which its directors and officers are insured against certain liabilities, including certain liabilities under the Securities Act of 1933, as amended ("Securities Act") and the Securities and Exchange Act of 1934, as amended ("Exchange Act").

RE: Registration Statement on Form S-1

Gentlemen:

We have acted as counsel to Visualant, Inc. (the "Company") in connection with the Registration Statement on Form S-1, File No. 333-175178, originally filed with the U.S. Securities and Exchange Commission (the "Commission") on June 28, 2011 (as it may be amended, the "Registration Statement"), covering: (a) 833,333 shares of common stock issued upon exercise of the Company's warrant granted to Coach Capital LLC on December 4, 2009; (b) 2,529,314 shares of common stock issued to Seaside 88 Advisors LLC pursuant to a Securities Purchase Agreement dated December 23, 2010; (c) 300,000 shares of common stock issuable upon exercise of the Company's warrant granted to Sterling Group on June 11, 2010; (d) up to 5,400,000 shares of common stock issuable to Gemini Master Fund Ltd. under a Securities Purchase Agreement, Convertible Debenture, and Warrant dated May 19, 2011; and (e) up to 6,277,714 shares of common stock issuable to Ascendant Capital Partners LLC under a Securities Purchase Agreement, Convertible Debenture and Warrant dated May 19, 2011 and a Securities Purchase Agreement dated June 17, 2011 (collectively, the "Shares"), which are being registered in connection with the proposed sale of the Shares by the selling stockholders listed therein.

In connection with this opinion, we have assumed that the Shares that are issuable under the purchase agreements, upon conversion of the debentures and upon exercise of the warrants, will be issued in the manner described in the Registration Statement and the prospectus relating thereto.

In connection with this opinion we have reviewed the proceedings of the Board of Directors of the Company relating to the registration and issuance of the Shares, the Company's Amended and Restated Articles of Incorporation dated September 3, 2002 as filed with the Nevada Secretary of State on September 13, 2002, the Bylaws of the Company and all amendments thereto, and such other documents and matters as we have deemed necessary as a basis for this opinion.

Based upon the foregoing, we are of the opinion that:

(a) The 833,333 Shares issued to Coach Capital LLC are duly authorized, validly issued, fully paid and nonassessable;

(b) The 2,529,314 Shares issued to Seaside 88 Advisors LLC are duly authorized, validly issued, fully paid and nonassessable; and

(c) The remaining 11,977,714 Shares that may be issued in the future, specifically, (i) the 300,000 shares of common stock issuable upon exercise of the Company's warrant granted to Sterling Group on June 11, 2010; (ii) up to 5,400,000 shares of common stock issuable to Gemini Master Fund Ltd. under a Securities Purchase Agreement, Convertible Debenture, and Warrant dated May 19, 2011; and (iii) up to 6,277,714 shares of common stock issuable to Ascendant Capital Partners LLC under a Securities Purchase Agreement, Convertible Debenture and Warrant dated May 19, 2011 and a Securities Purchase Agreement dated June 17, 2011, when issued in accordance with the respective terms and conditions of the applicable Warrants, Securities Purchase Agreements and Convertible Debentures, will be legally issued, fully paid, and nonassessable.

We do not find it necessary for the purposes of this opinion to cover, and accordingly we express no opinion as to, the application of the securities or blue sky laws of the various states as to the issuance and sale of the Shares.

We consent to the use of this opinion as an exhibit to the Registration Statement filed with the Commission in connection with the registration of the Shares and to the reference to our firm in the Registration Statement.

Very truly yours,
Monahan & Biagi, PLLC
