### The Company and our Business

We were incorporated under the laws of the State of Nevada on October 8, 1998 with authorized common stock of 500,000,000 shares at \$0.001 par value. On September 13, 2002, 50,000,000 shares of preferred stock with a par value of \$0.001 were authorized by the shareholders. There are no preferred shares issued and the terms have not been determined. Our executive offices are located in Seattle, Washington.

We have invented a way to shine light at a material (solid surface, liquid, or gas) and measure the amount of light that is reflected back. The pattern of this reflected light is compared to other patterns we have captured and this allows us to identify, detect, or diagnose materials that cannot be identified by the human eye. We refer to this pattern of reflected light as a ChromaID™. We design ChromaID Scanner devices made with electronic, optical, and software parts to produce and capture the light.

Our first product, the ChromaID F12 Lab Kit, scans and identifies solid surfaces. We are marketing this product to customers who are considering licensing the technology. Target markets include, but are not limited to, commercial paint manufacturers, pharmaceutical equipment manufacturers, process control companies, currency paper and ink manufacturers, security card, reader, and scanner manufacturers, food processing, and electronic gaming.

Through our wholly owned subsidiary, TransTech Systems, Inc., based in Aurora, Oregon, we provide value added security and authentication solutions to corporate and government security and law enforcement markets throughout the United States.

On June 10, 2013, we entered into a Purchase Agreement, Warrants, Registration Rights Agreement and Voting Agreement with Special Situations and forty other accredited investors, pursuant to which we issued 52,300,000 shares of common stock at \$0.10 per share for a total of \$5,230,000, which amount included the conversion of \$500,000 in outstanding debt of the Company owed to one of its officers. As part of that transaction, which closed on June 14, 2013, we issued to the investors (i) five year Series A Warrants to purchase a total of 52,300,000 shares of common stock at \$0.15 per share; and (ii) five year Series B Warrants to purchase a total of 52,300,000 shares of common stock at \$0.20 per share. The transaction was entered into to strengthen our balance sheet, complete the purchase of our TransTech subsidiary, and provide working capital to support the rapid movement of our ChromaID technology into the marketplace.

We have a Joint Development Agreement through December 31, 2013 with Sumitomo Precision Products Co., Ltd., which focuses on the commercialization of the ChromaID™ technology as well as a License Agreement providing SPP with an exclusive license of the ChromaID™ technology in identified Asian territories. SPP is publicly traded in Japan and has operations in Japan, United States, China, United Kingdom, Canada and other parts of the world.

To date, we have been issued five patents by the United States Office of Patents and Trademarks. See page 16 for more detailed information regarding our patents and our business.

### Summary Financial Results

Net revenue for the nine months ended June 30, 2013 increased \$808,000 to \$6,334,000 as compared to \$5,526,000 for the nine months ended June 30, 2012. The increase was due to license revenue of \$667,000 from SPP and increased sales of \$5,667,000 at TransTech. Net revenue for the nine months ended June 30, 2012 reflected \$84,000 from SPP and sales of \$5,442,000 at TransTech. SPP paid the Company an initial payment of \$1 million under a License Agreement dated May 31, 2012 providing SPP with an exclusive license of our technology in identified Asian territories. This license revenue will be fully recognized by May 31, 2013. The TransTech increase primarily resulted from the release of new products.

Net loss for the nine months ended June 30, 2013 was \$5,463,000 as compared to a net loss of \$1,925,000 for the nine months ended June 30, 2012 for the reasons discussed above. The net loss included non-cash expenses of \$3,264,000. We expect losses to continue as we commercialize our ChromaID™ technology.

Net revenue for the year ended September 30, 2012 decreased \$1,212,000 to \$7,924,000 as compared to \$9,136,000 for the year ended September 30, 2011. The reduction was due to a large sale by TransTech to an aerospace company in the year ended September 30, 2011, which was not repeated in the year ended September 30, 2012. Net loss for the year ended September 30, 2012 was \$2,732,000 as compared to a net loss of \$2,410,000 for the year ended September 30, 2011. The net loss included non-cash expenses of \$1,302,000 and other business development and investor relation expenditures to expand the business.

### **Going Concern**

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. We incurred net losses of \$5,462,678 and \$2,725,692 for the nine months ended June 30, 2013 and the year ended September 30, 2012, respectively. Our net cash used in operating activities was \$2,468,603 for the nine months ended June 30, 2013.

We anticipate that we will record losses from operations for the foreseeable future. As of June 30, 2013, our accumulated deficit was \$19,378,609. We have limited capital resources, and operations to date have been funded with the proceeds from private equity and debt financings and loans from Ronald P. Erickson, our Chief Executive Officer. These conditions raise substantial doubt about our ability to continue as a going concern. The audit report prepared by our independent registered public accounting firm relating to our financial statements for the year ended September 30, 2012 includes an explanatory paragraph expressing the substantial doubt about our ability to continue as a going concern.

Our continuation as a going concern is dependent upon obtaining additional working capital. The financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

### **Risks Factors**

We are subject to a number of risks, which the reader should be aware of before deciding to purchase the securities in this offering. These risks are discussed below in the section titled Risk Factors beginning on page 6 of this prospectus.

### **Corporate Information**

We were incorporated under the laws of the State of Nevada on October 8, 1998. Our executive offices are located at 500 Union Street, Suite 420, Seattle, WA 98101. ### **The Company's Common Stock**

Our common stock currently trades on OTCQB under the symbol VSUL.

### **RISK FACTORS**

*An investment in our Common Stock involves a high degree of risk. You should carefully consider the following risk factors and other information in this prospectus before deciding to invest in shares of the Company's Common Stock. The most significant risks and uncertainties known and identified by our management are described below. If any of the following risks actually occurs, our business, financial condition, liquidity, results of operations and prospects for growth could be materially adversely affected, the trading price of our Common Stock could decline, and you may lose all or part of your investment. You should acquire shares of our Common Stock only if you can afford to lose your entire investment. We make various statements in this section that constitute "forward-looking statements". See "Forward-Looking Statements" beginning on page 11 of this prospectus.*

### **WE EXPECT TO NEED ADDITIONAL FINANCING TO SUPPORT OUR TECHNOLOGY DEVELOPMENT AND ONGOING OPERATIONS AND PAY OUR DEBTS.**

We expect that we will need additional financing to implement our business plan and to service our ongoing operations and pay our current debts. There can be no assurance that we will be able to secure any needed funding, or that if such funding is available, the terms or conditions would be acceptable to us. If we are unable to obtain additional financing when it is needed, we may have to restructure our operations.

If we raise additional capital through borrowing or other debt financing, we will incur substantial interest expense. Sales of additional equity securities will dilute on a pro rata basis the percentage ownership of all holders of common stock. When we raise more equity capital in the future, it will result in substantial dilution to our current stockholders.

#### THE SALE OF A SIGNIFICANT NUMBER OF OUR SHARES OF COMMON STOCK COULD DEPRESS THE PRICE OF OUR COMMON STOCK.

Sales or issuances of a large number of shares of common stock in the public market or the perception that sales may occur could cause the market price of our common stock to decline. As of August 16, 2013, there were approximately 166.7 million shares of our common stock issued and outstanding. If all shares that are covered by this prospectus and registration statement are issued, approximately 276,530,000 of our currently authorized 500,000,000 shares of common stock will be issued and outstanding.

The Company may be obligated to issue up to 5,230,000 additional placement agent warrants under certain circumstances as more fully described in the description of the transaction in “Business” below, which has the potential to add an additional 5,230,000 shares to the total number of shares of common stock issued and outstanding.

Significant shares of common stock are held by our principal shareholders, other Company insiders and other large shareholders. As affiliates as defined under Rule 144 of the Securities Act or Rule 144 of the Company, our principal shareholders, other Company insiders and other large shareholders may only sell their shares of common stock in the public market pursuant to an effective registration statement or in compliance with Rule 144.

Some of the present shareholders have acquired shares at prices as low as \$0.001 per share, whereas other shareholders have purchased their shares at prices ranging from \$0.05 to \$0.75 per share.

In addition, as of August 16, 2013, there are also options outstanding for the purchase of 11.0 million common shares at a \$0.131 average strike price, and warrants for the purchase of 112.4 million common shares at a \$0.173 average exercise price.

These options and warrants could result in further dilution to common stock holders and may affect the market price of the common stock.

#### OUR PRIVATE PLACEMENT WHICH CLOSED JUNE 14, 2013 MAY REQUIRE ADJUSTMENT IN THE EXERCISE PRICE OF THE WARRANTS ISSUED.

The warrants issued in connection with the recent transaction with Special Situations may require an adjustment in the exercise price of the warrants if we issue common stock, warrants or equity below the price that is reflected in the warrants. This adjustment may affect the market price of the common stock.

#### WE MAY ENGAGE IN ACQUISITIONS, MERGERS, STRATEGIC ALLIANCES, JOINT VENTURES AND DIVESTITURES THAT COULD RESULT IN FINANCIAL RESULTS THAT ARE DIFFERENT THAN EXPECTED.

In the normal course of business, we engage in discussions relating to possible acquisitions, equity investments, mergers, strategic alliances, joint ventures and divestitures. Such transactions are accompanied by a number of risks, including:

- Use of significant amounts of cash;
- Potentially dilutive issuances of equity securities on potentially unfavorable terms;
- Incurrence of debt on potentially unfavorable terms as well as impairment expenses related to goodwill and amortization expenses related to other intangible assets; and
- The possibility that we may pay too much cash or issue too many of our shares as the purchase price for an acquisition relative to the economic benefits that we ultimately derive from such acquisition.

The process of integrating any acquisition may create unforeseen operating difficulties and expenditures. The areas where we may face difficulties include:

- Diversion of management time, during the period of negotiation through closing and after closing, from its focus on operating the businesses to issues of integration;
- Decline in employee morale and retention issues resulting from changes in compensation, reporting relationships, future prospects or the direction of the business;
- The need to integrate each Company's accounting, management information, human resource and other administrative systems to permit effective management, and the lack of control if such integration is delayed or not implemented;
- The need to implement controls, procedures and policies appropriate for a public Company that may not have been in place in private companies, prior to acquisition;
- The need to incorporate acquired technology, content or rights into our products and any expenses related to such integration; and
- The need to successfully develop any acquired in-process technology to realize any value capitalized as intangible assets.

From time to time, we have also engaged in discussions with candidates regarding the potential acquisitions of our product lines, technologies and businesses. If a divestiture such as this does occur, we cannot be certain that our business, operating results and financial condition will not be materially and adversely affected. A successful divestiture depends on various factors, including our ability to:

- Effectively transfer liabilities, contracts, facilities and employees to any purchaser;
- Identify and separate the intellectual property to be divested from the intellectual property that we wish to retain;
- Reduce fixed costs previously associated with the divested assets or business; and
- Collect the proceeds from any divestitures.

In addition, if customers of the divested business do not receive the same level of service from the new owners, this may adversely affect our other businesses to the extent that these customers also purchase other products offered by us. All of these efforts require varying levels of management resources, which may divert our attention from other business operations.

If we do not realize the expected benefits or synergies of any divestiture transaction, our consolidated financial position, results of operations, cash flows and stock price could be negatively impacted.

#### WE MAY INCUR LOSSES IN THE FUTURE.

We have experienced net losses since inception. As of June 30, 2013, we had an accumulated deficit of \$19.4 million. There can be no assurance that we will achieve or maintain profitability.

#### THE MARKET PRICE OF OUR COMMON STOCK HAS BEEN AND MAY CONTINUE TO BE VOLATILE.

The market price of our common stock has been and is likely in the future to be volatile. Our common stock price may fluctuate in response to factors such as:

- Announcements by us regarding liquidity, significant acquisitions, equity investments and divestitures, strategic relationships, addition or loss of significant customers and contracts, capital expenditure commitments and litigation;
- Issuance of convertible or equity securities and related warrants for general or merger and acquisition purposes;
- Issuance or repayment of debt, accounts payable or convertible debt for general or merger and acquisition purposes;
- Sale of a significant number of shares of our common stock by shareholders;
- General market and economic conditions;
- Quarterly variations in our operating results;
- Investor and public relation activities;
- Announcements of technological innovations;
- New product introductions by us or our competitors;
- Competitive activities; and
- Additions or departures of key personnel.

These broad market and industry factors may have a material adverse effect on the market price of our common stock, regardless of our actual operating performance. These factors could have a material adverse effect on our business, financial condition and results of operations.

#### TRADING IN THE COMPANY'S STOCK MAY BE RESTRICTED BY THE SEC'S PENNY STOCK REGULATIONS.

Our stock is categorized as a penny stock. The SEC has adopted Rule 15c-9 which generally defines "penny stock" to be any equity security that has a market price (as defined) less than US\$ 5.00 per share or an exercise price of less than US\$ 5.00 per share, subject to certain exclusions, none of which apply to our stock (e.g., net tangible assets in excess of \$2,000,000 or average revenue of at least \$6,000,000 for the last three years). Our securities are covered by the penny stock rules, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and accredited investors. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the SEC which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction, and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. Finally, broker-dealers may not handle penny stocks under \$0.10 per share.

These disclosure requirements reduce the level of trading activity in the secondary market for the stock that is subject to these penny stock rules. Consequently, these penny stock rules affect the ability of broker-dealers to trade our securities. We believe that the penny stock rules discourage investor interest in and limit the marketability of our common stock to current and future investors, resulting in limited ability for investors to sell their shares.

#### FINRA SALES PRACTICE REQUIREMENTS MAY ALSO LIMIT A SHAREHOLDER'S ABILITY TO BUY AND SALE OUR STOCK.

In addition to the "penny stock" rules described above, FINRA has adopted rules that require that in recommending an investment to a customer, a broker-dealer must have reasonable grounds for believing that the investment is suitable for that customer. Prior to recommending speculative low priced securities to their non-institutional customers, broker-dealers must make reasonable efforts to obtain information about the customer's financial status, tax status, investment objectives and other information. Under interpretations of these rules, FINRA believes that there is a high probability that speculative low priced securities will not be suitable for at least some customers. The FINRA requirements make it more difficult for broker-dealers to recommend that their customers buy our common stock, which may limit your ability to buy and sell our stock and have an adverse effect on the market for our shares.

The penny stock rules may discourage investor interest in and limit the marketability of our common stock to current and future investors, resulting in limited ability for investors to sell their shares.

#### WE ARE DEPENDENT ON KEY PERSONNEL.

Our success depends to a significant degree upon the continued contributions of key management and other personnel, some of whom could be difficult to replace. We do not maintain key man life insurance covering certain of our officers. Our success will depend on the performance of our officers, our ability to retain and motivate our officers, our ability to integrate new officers into our operations, and the ability of all personnel to work together effectively as a team. Our officers do not have employment agreements. Our failure to retain and recruit officers and other key personnel could have a material adverse effect on our business, financial condition and results of operations.

#### WE HAVE LIMITED INSURANCE.

We have limited directors' and officers' liability insurance and commercial liability insurance policies. Any significant claims would have a material adverse effect on our business, financial condition and results of operations.

#### OUR JOINT DEVELOPMENT AGREEMENT WITH SUMITOMO PRECISION PRODUCTS CO. LTD IS IMPORTANT TO OUR OPERATIONS AND IS SUBJECT TO EXPIRATION.

On May 31, 2012, we entered into a Joint Research and Product Development Agreement with SPP for the commercialization of our ChromaID technology. The term of the Joint Development Agreement was extended to December 31, 2013. This Joint Development Agreement focuses on the commercialization of our ChromaID™ technology. Our failure to operate in accordance with the terms of the Joint Development Agreement could result in the agreement not being renewed at the expiration of its current term.

WE NEED TO CONTINUE AS A GOING CONCERN IF OUR BUSINESS IS TO SUCCEED.

Our financial statements and notes for the nine months ended June 30, 2013 indicate that there are a number of factors that raise substantial doubt about our ability to continue as a going concern. Such factors identified in the report result from net losses, negative working capital, and the need for additional financing to implement our business plan and service our debt repayments. If we are not able to continue as a going concern, it is likely investors will lose their investments.

WE MAY BE UNABLE TO PROTECT OUR IP RIGHTS, WHICH WOULD HARM OUR BUSINESS, FINANCIAL CONDITION AND OPERATING RESULTS.

We rely on a combination of patent, trademark, and trade secret laws, confidentiality procedures and licensing arrangements to protect our IP rights.

There can be no assurance that:

- any of our existing patents will continue to be held valid, if challenged;
- patents will be issued for any of our pending applications;
- any claims allowed from existing or pending patents will have sufficient scope or strength to protect us;
- our patents will be issued in the primary countries where our products are sold in order to protect our rights and potential commercial advantage; or
- any of our products or technologies will not infringe on the patents of other companies.

If we are enjoined from selling our products, or if we are required to develop new technologies or pay significant monetary damages or are required to make substantial royalty payments, our business and results of operations would be harmed.

WE ARE SUBJECT TO CORPORATE GOVERNANCE AND INTERNAL CONTROL REQUIREMENTS, AND OUR COSTS RELATED TO COMPLIANCE WITH, OR OUR FAILURE TO COMPLY WITH EXISTING AND FUTURE REQUIREMENTS, COULD ADVERSELY AFFECT OUR BUSINESS.

We must comply with corporate governance requirements under the Sarbanes-Oxley Act of 2002 and the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, as well as additional rules and regulations currently in place and that may be subsequently adopted by the SEC and the Public Company Accounting Oversight Board. These laws, rules, and regulations continue to evolve and may become increasingly stringent in the future. We are required to include management's report on internal controls as part of our annual report pursuant to Section 404 of the Sarbanes-Oxley Act. We strive to continuously evaluate and improve our control structure to help ensure that we comply with Section 404 of the Sarbanes-Oxley Act. The financial cost of compliance with these laws, rules, and regulations is expected to remain substantial.

Our management has concluded that our disclosure controls and procedures were not effective due to the presence of the following material weaknesses in internal control over financial reporting:

While we have an audit committee, we lack a financial expert. During 2013, the Board expects to appoint an additional independent Director to serve as Audit Committee Chairman who is an audit committee financial expert as defined by the SEC and as adopted under the Sarbanes-Oxley Act of 2002.

Management anticipates that such disclosure controls and procedures will not be effective until the material weaknesses are remediated. We cannot assure you that we will be able to fully comply with these laws, rules, and regulations that address corporate governance, internal control reporting, and similar matters. Failure to comply with these laws, rules and regulations could materially adversely affect our reputation, financial condition, and the value of our securities.

THE OFFERING MAY NOT COVER ALL DEBTS DUE IN THE NEXT SIX MONTHS.

The funds received by the Company in the Special Situations transaction may not cover all debts and other obligations due in the coming months. We may need additional financing within the next six months. If we raise additional capital through borrowing or other debt financing, we will incur substantial interest expense. Sales of additional equity securities will dilute on a pro rata basis the percentage ownership of all holders of common stock. When we raise more equity capital in the future, it will result in substantial dilution to our current stockholders.

WE MAY ISSUE PREFERRED STOCK THAT COULD HAVE RIGHTS THAT ARE PREFERENTIAL TO THE RIGHTS OF COMMON STOCK THAT COULD DISCOURAGE POTENTIALLY BENEFICIAL TRANSACTIONS TO OUR COMMON SHAREHOLDERS.

An issuance of additional shares of preferred stock could result in a class of outstanding securities that would have preferences with respect to voting rights and dividends and in liquidation over our common stock and could, upon conversion or otherwise, have all of the rights of our common stock. Our Board of Directors' authority to issue preferred stock could discourage potential takeover attempts or could delay or prevent a change in control through merger, tender offer, proxy contest or otherwise by making these attempts more difficult or costly to achieve. The issuance of preferred stock could impair the voting, dividend and liquidation rights of common stockholders without their approval.

IF THE COMPANY WERE TO DISSOLVE OR WIND-UP, HOLDERS OF OUR COMMON STOCK MAY NOT RECEIVE A LIQUIDATION DISTRIBUTION.

If we were to wind-up or dissolve the Company and liquidate and distribute our assets, our shareholders would share ratably in our assets only after we satisfy any amounts we owe to our creditors. If our liquidation or dissolution were attributable to our inability to profitably operate our business, then it is likely that we would have material liabilities at the time of liquidation or dissolution. Accordingly, we cannot give you any assurance that sufficient assets will remain available after the payment of our creditors to enable you to receive any liquidation distribution with respect to any shares you may hold.

#### **USE OF PROCEEDS**

We will not receive any proceeds from the sale of the common stock by the selling security holders. All proceeds from the sale of such securities offered by the selling security holders under this prospectus will be for the account of the selling security holders, as described below in the sections entitled Selling Security Holders and Plan of Distribution. With the exception of any brokerage fees and commissions which are the respective obligations of the selling security holders, we are responsible for the fees, costs and expenses of this registration statement, which includes our legal and accounting fees, printing costs, and filing and other miscellaneous fees and expenses.

#### **DILUTION**

##### **Net Tangible Book Value**

As of March 31, 2013, the net tangible book value of the Company was a deficit of (\$3,313,195) or approximately \$(0.03) per share based upon 111,978,606 shares of common stock outstanding.

##### **Dilution to Investors in the Private Placement**

The investors in the private placement which closed on June 14, 2013 paid (or will pay, assuming the full exercise of the Series A and Series B warrants for 104,600,000 shares of common stock and the placement agent warrants for 5,230,000 shares) a total of \$24,058,000, resulting in an average price per share of common stock of approximately \$0.148. Assuming the full exercise of the Series A and Series B warrants for an aggregate of 104,600,000 common shares at an average exercise price of \$.175 per share and the full exercise of the placement agent warrants for 5,230,000 shares at \$0.10 per share, the private placement will result in the Company's net tangible book value increasing to \$19,437,760 or approximately \$0.070 per share of common stock based upon a total of 276,530,000 common shares outstanding.

The investors who acquired shares in the private placement suffered immediate dilution and upon exercise of the Series A and Series B warrants and the placement agent warrants, will suffer total dilution in the amount of \$0.078 per share. As a result of the private placement and assuming full exercise of the warrants issued in the private placement, our existing stockholders experienced an increase in the net tangible book value of their shares of \$0.10 per share without any additional investment on their part.

The investors who acquired shares in the private placement will own approximately 58.6% of the total number of outstanding shares (assuming full exercise of all the warrants issued in the private placement) for which they will have made a cash investment in the aggregate amount of \$24,058,000, or approximately \$0.148 per share.

The following table reflects the change in net tangible book value and resulting dilution to investors in the private placement, and compares the differences in investment by the investors acquiring shares in the private placement with investment in our shares by our existing stockholders:

Private placement average price per share of common stock(52,300,000 shares at \$0.10 per share and assuming full exercise of the Series A and Series B Warrants for 104,600,000 shares at an average price of \$0.175 per share and full exercise of the placement agent warrants for 5,230,000 shares at \$0.10 per share)	\$ 0.148
Net Tangible Book Value per share prior to private placement	\$(0.030)
Net Tangible Book Value per share after private placement	\$ 0.070
Dilution to stockholders in private placement (assuming full exercise of all Warrants issued in the private placement)	\$ 0.078
Increase in Net Tangible Book Value to existing stockholders following the private placement (without any additional investment by existing stockholders)	\$ 0.10

The net tangible book value of the Company will remain the same upon the purchase of any shares from the selling stockholders in this registration statement. The purchasers of these shares will suffer immediate and substantial dilution averaging approximately \$0.078 per share assuming the shares are purchased for the same price at which the investors in the private placement purchased these shares.

### SELLING SECURITY HOLDERS

The following table sets forth the number of shares of our common stock which may be sold by each of the selling security holders pursuant to this prospectus, including: (i) 34,300,000 shares of common stock issuable upon the exercise of a portion of the five year Series A Warrants issued to Special Situations Technology Funds, L.P. and forty other accredited investors at \$0.15 per share pursuant to a Private Placement which closed June 14, 2013; (ii) 52,300,000 shares of common stock issuable upon the exercise of five year Series B Warrants issued to Special Situations and the other investors at \$0.20 per share in the same private placement; and (iii) 5,230,000 shares of common stock issuable upon the exercise of five year placement agent warrants issued to GVC Capital LLC or affiliated parties at \$0.10 per share in connection with the same private placement. We agreed to register for resale the shares covered by this prospectus as a condition to the purchase of these securities, which were sold in a private offering resulting in the purchasers holding restricted securities.

We are registering these securities in order to permit the selling security holders to dispose of the shares of common stock, or interests therein, from time to time.

The selling security holders may decide to sell all, some, or none of the securities listed below. See the Plan of Distribution. We cannot provide an estimate of the number of securities that any of the selling security holders will hold in the future. For purposes of this table, beneficial ownership is determined in accordance with the rules of the SEC, and includes voting power and investment power with respect to such securities.

Except for Ronald P. Erickson and affiliated entities, Mark Scott, or as indicated in the section of this prospectus entitled Certain Relationships and Related Party Transactions beginning on page 36, no selling security holder has had any material relationship with us or our affiliates during the last three years. Except as disclosed below, to the best of the Company's knowledge, no selling security holder is a registered broker-dealer or an affiliate of a broker-dealer. GVC Capital and affiliates acquired their beneficially owned shares in private transactions in early 2013, prior to the transaction with Special Situations. The shares covered by this registration statement will not be offered for sale on our behalf.

The table below lists the selling security holders and other information regarding the beneficial ownership of the shares of common stock by each of the selling security holders. Column B lists the number of shares of common stock beneficially owned by each selling security holder as of August 16, 2013. Column C lists the shares of common stock previously registered on a prospectus that may be disposed of by each of the selling security holders. Column D lists the shares of common stock covered by this prospectus and are considered beneficially owned. Column E lists the number of shares of common stock that will be beneficially owned by the selling security holders assuming all of the shares covered by this prospectus are sold. Column F lists the percentage of class beneficially owned based on 295,271,200 shares of common stock outstanding on August 16, 2013 on a fully diluted basis.

#### PLAN OF DISTRIBUTION

We are registering shares of common stock that have been issued by us to forty-one investors pursuant to a Private Placement with Special Situations which closed June 14, 2013 in order to permit the resale of these shares of common stock as required under the terms of the Purchase Agreement and the related Registration Rights Agreement between the Company and the investors. We will not receive any of the proceeds from the sale of these shares of common stock by the selling stockholders. Under the terms of the Registration Rights Agreement, we have agreed to pay all fees and expenses incident to our obligation to register these shares of common stock.

The selling stockholders may decide not to sell any of their respective shares of common stock, or may sell all or a portion of the shares of common stock beneficially owned by them. The selling stockholders will act independently of us in making decisions with respect to the timing, manner and size of any sale of shares, and may sell the shares directly or through one or more broker-dealers or agents. To the extent that any of the selling stockholders employ broker-dealers or other agents in connection with the sale of their respective shares of stock, such selling stockholders will pay any commissions, discounts or other amounts due to such broker-dealers or agents. To our knowledge, the selling stockholders have not entered into any agreement, arrangement or understanding with any particular broker-dealer or market maker with respect to the sale or distribution of the shares of common stock offered hereby, nor do we know the identity of any broker-dealers or market makers that may participate in the resale of the shares.

The selling stockholders, which as used herein includes donees, pledgees, transferees or other successors-in-interest selling shares of common stock or interests in shares of common stock received after the date of this prospectus from a selling stockholder as a gift, pledge, partnership distribution or other transfer, may, from time to time, sell, transfer or otherwise dispose of any or all of their shares of common stock or interests in shares of common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These dispositions may be at fixed prices, at prevailing market prices at the time of sale, at prices related to the prevailing market price, at varying prices determined at the time of sale, or at negotiated prices.

The selling stockholders may use any one or more of the following methods when disposing of shares or interests therein:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent, but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- short sales effected after the date the registration statement of which this Prospectus is a part is declared effective by the SEC;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- broker-dealers may agree with the selling stockholders to sell a specified number of such shares at a stipulated price per share;
- a combination of any such methods of sale; and
- any other method permitted by applicable law.

The selling stockholders may, from time to time, pledge or grant a security interest in some or all of the shares of common stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of common stock, from time to time, under this prospectus, or under an amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act amending the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus. The selling stockholders also may transfer the shares of common stock in other circumstances, in which case the transferees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

In connection with the sale of our common stock or interests therein, the selling stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the common stock in the course of hedging the positions they assume. The selling stockholders may also sell shares of our common stock short and deliver these securities to close out their short positions, or loan or pledge the common stock to broker-dealers that in turn may sell these securities. The selling stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus as supplemented or amended to reflect such transaction.

The aggregate proceeds to the selling stockholders from the sale of the common stock offered by them will be the purchase price of the common stock less discounts or commissions, if any. Each of the selling stockholders reserves the right to accept and, together with their agents from time to time, to reject, in whole or in part, any proposed purchase of common stock to be made directly or through agents. We will not receive any of the proceeds from these stock sales. Upon any exercise by the holders of the Series A Warrants by payment of cash, however, the Company will receive the exercise price of such Series A Warrants.

The selling stockholders also may resell all or a portion of the shares in open market transactions in reliance upon Rule 144 under the Securities Act of 1933, provided that they meet the criteria and conform to the requirements of that rule.

The selling stockholders and any underwriters, broker-dealers or agents that participate in the sale of the common stock or interests therein may be "underwriters" within the meaning of Section 2(11) of the Securities Act. Any discounts, commissions, concessions or profit they earn on any resale of the shares may be underwriting discounts and commissions under the Securities Act. Selling stockholders who are "underwriters" within the meaning of Section 2(11) of the Securities Act will be subject to the prospectus delivery requirements of the Securities Act.

To the extent required, the shares of our common stock to be sold, the names of the selling stockholders, the respective purchase prices and public offering prices, the names of any agents, dealer or underwriter, any applicable commissions or discounts with respect to a particular offer will be set forth in an accompanying prospectus supplement or, if appropriate, a post-effective amendment to the registration statement that includes this prospectus.

In order to comply with the securities laws of some states, if applicable, the common stock may be sold in these jurisdictions only through registered or licensed brokers or dealers. In addition, in some states the common stock may not be sold unless it has been registered or qualified for sale or an exemption from registration or qualification requirements is available and is complied with.

We have advised the selling stockholders that the anti-manipulation rules of Regulation M under the Exchange Act may apply to sales of shares in the market and to the activities of the selling stockholders and their affiliates. In addition, to the extent applicable we will make copies of this prospectus as it may be supplemented or amended from time to time available to the selling stockholders for the purpose of satisfying the prospectus delivery requirements of the Securities Act. The selling stockholders may indemnify any broker-dealer that participates in transactions involving the sale of the shares against certain liabilities, including liabilities arising under the Securities Act.

We have agreed to indemnify the selling stockholders against liabilities, including liabilities under the Securities Act and state securities laws, arising out of or based upon (i) any untrue statement or omission of any material fact contained in this prospectus and registration statement, including any amendment or supplement thereof, (ii) any blue sky application filed by the Company in any state in order to qualify the shares covered by this prospectus under the securities laws of such state; (iii) the omission in any blue sky application of a material fact required or necessary to make any statement therein not misleading; (iv) any violation by the Company of any rule or regulation under the Securities Act relating to the registration of the shares covered by this prospectus; or (v) any failure by the Company to register or qualify the shares covered by this prospectus in any state where the Company has affirmatively undertaken such registration or qualification on a selling stockholder's behalf; provided, however, that the Company will not be liable to the extent any liability arises out of or is based upon an untrue statement or omission made or furnished by any selling stockholder for use in this prospectus and registration statement.

We also have agreed with the selling stockholders to keep the registration statement of which this prospectus constitutes a part effective until the earlier of (1) the date on which all of the shares covered by this prospectus have been sold, or (2) the date on which all of the shares may be sold without restriction pursuant to Rule 144 of the Securities Act.

## BUSINESS

### The Company and our Business

We were incorporated under the laws of the State of Nevada on October 8, 1998 with authorized common stock of 500,000,000 shares at \$0.001 par value. On September 13, 2002, 50,000,000 shares of preferred stock with a par value of \$0.001 were authorized by the shareholders. There are no preferred shares issued and the terms have not been determined. Our executive offices are located in Seattle, Washington.

The following summarizes our plans for our ChromaID™ technology, which is expected to provide the majority of net revenues in future years. TransTech currently provides the majority of our net revenues. There is no government regulation to our business at this time.

### Our ChromaID™ Technology

We have invented a way to project light at a material (solid surface, liquid, or gas) and measure the amount of light that is reflected back. The pattern of this reflected light is compared to other patterns we have captured and this allows us to identify, detect, or diagnose materials that cannot be identified by the human eye. We refer to this pattern of reflected light as a ChromaID™. We design ChromaID scanning devices made with electronic, optical, and software parts to produce and capture the light.

Our first product, the ChromaID F12 Lab Kit, scans and identifies solid surfaces. We are marketing this product to customers who are considering licensing the technology. Target markets include, but are not limited to, commercial paint manufacturers, pharmaceutical equipment manufacturers, process control companies, currency paper and ink manufacturers, security card, reader, and scanner manufacturers, food processing, and electronic gaming.

We are pursuing an aggressive patent strategy to expand our unique intellectual property in the United States and Japan and other countries.

### Our Joint Development Agreement with Sumitomo Precision Products Co., Ltd.

On May 31, 2012, we entered into a Joint Research and Product Development Agreement with SPP, a publicly-traded Japanese corporation, for the commercialization of our ChromaID™ technology. On March 29, 2013, we entered into an Amendment to Joint Research and Product Development Agreement or Amended Agreement with SPP. The Amended Agreement extends the Joint Development Agreement from March 31, 2013 to December 31, 2013 and focuses on the commercialization of our ChromaID™ technology.

SPP invested \$2,250,000 in exchange for 17,307,693 shares of restricted common shares priced at \$0.13 per share that was funded on June 21, 2012. SPP also paid the Company an initial payment of \$1 million in accordance for an exclusive License Agreement which covers select countries in Asia. A running royalty for the license granted under the License Agreement will be negotiated at the completion of the Joint Development Agreement. The SPP License fee was recorded as revenue over the life the Joint Development Agreement and was fully recorded as of May 31, 2013.

SPP is publicly traded in Japan and has operations in Japan, United States, China, United Kingdom, Canada and other parts of the world.

### **Our Developing Markets and Customers.**

Our plan is to develop markets and customers who have a need to identify, detect, or diagnose flat surface materials which include, but are not limited to, commercial paint manufacturers, pharmaceutical equipment manufacturers, process control companies, currency paper and ink manufacturers, security card, reader, and scanner manufacturers, food processing, and electronic gaming.

Future market opportunities might include identification, detection, or diagnosis of:

- Powders for law enforcement applications,
- Drugs and drug container seals for protection against contamination and counterfeiting for pharmaceutical applications.
- Fruit and vegetable ripeness for agriculture applications,
- Noninvasive skin analysis for discovery of certain diseases or conditions for medical applications.

### **Our Commercialization Plans for our ChromaID Technology.**

The current path to commercialization for the markets stated above is to sell a ChromaID F12 Lab Kit which includes:

- ChromaID F12 Scanner. A small device made with electronic, optical, and software parts which shine light onto a flat material and measures the amount of light that is reflected back. The device is the size of a flashlight (5.5" long and 1.25" diameter).
- ChromaID Lab Software. A software application that runs on a Windows Personal Computer. This software configures and controls the ChromaID F12 Scanner, displays the captured ChromaID Profile, and compares it to known ChromaID Profiles.

The ChromaID F12 Scanner allows customers to evaluate the technology and determine if it is appropriate for their application. The main electronic and optical parts of the ChromaID scanner can be supplied to customers to put in their own products, these parts are called the "Scanhead". A set of ChromaID Developer Tools are also available, which allows customers to develop their own products based on the ChromaID technology.

The ChromaID profile must be stored, managed, and readily accessible. The database can be owned and operated by the end customer, but in the case of thousands of ChromaID profiles database management may be outsourced to Visualant or a third party provider. These database services can be made available on a per-access transaction basis or on a monthly or annual subscription basis. The actual storage location of the database can be cloud-based or local depending on the requirements of access, size of the database and security as defined by the customer. As a result, large databases can be accessed by cell phone or other mobile technologies.

Based on the commercialization plans outlined above, revenue can be derived from several sources:

- Sale of the ChromaID F12 Lab Kit and ChromaID Developer Tools.
- Licensing of the ChromaID technology,
- Sales of the Scanhead and associated licensing and royalties.
- ChromaID database administration and management services.

### **Our Acceleration of Business Development in the United States and Japan.**

We are coordinating the sales and marketing efforts of both Visualant and SPP to leverage market data and information in order to focus on specific target vertical markets which have the greatest potential for early adoption. The ChromaID F12 Lab Kit provides a means for us to demonstrate the technology to customers in these markets.

### **Development of License, Royalty and Other Opportunities**

Our plan is to develop license and royalty producing opportunities and partners, including major companies in the US, Europe and Asia. We expect to develop our patent portfolio by continually extending the reach and application of our intellectual property.

Our first major license was signed May 31 2012 with SPP. Our Business Development team is pursuing other license opportunities with customers in our target markets.

### **Our Acquisition of TransTech Systems, Inc.**

Our wholly owned subsidiary, TransTech Systems, Inc. is based in Aurora, Oregon, and was founded in 1994. TransTech provides value-added security and authentication solutions to corporate and government security and law enforcement markets throughout the United States. With recorded revenues of \$7.6 million in 2012, TransTech has a respected national reputation for outstanding product knowledge, sales and service excellence.

We closed the acquisition of TransTech on June 8, 2010. We acquired our 100% interest in TransTech by issuing a Promissory Note to James Gingo, who at the time of the acquisition was the President and sole shareholder of TransTech, in the amount of \$2,300,000, plus interest at the rate of three and one-half percent per annum from the date of the Note. The Note was secured by a security interest in the stock and assets of TransTech, and was payable over a period of three years. The final balance of \$1,000,000 on the Note and accrued interest of \$30,397 were paid to Mr. Gingo on June 12, 2013, to complete payment of the purchase price for the TransTech stock.

On June 8, 2010 in connection with the acquisition of TransTech, we issued a total of 3,800,000 shares of restricted common stock of the Company to James Gingo, Jeff Kruse and Steve Waddle, executives of TransTech, and Paul Bonderson, a TransTech investor. The parties valued the shares in this transaction at \$76,000 or \$0.02 per share, the closing bid price during negotiations.

This acquisition is expected to accelerate market entry and penetration through well-operated and positioned dealers of security and authentication systems, thus creating a natural distribution channel for products featuring the company's proprietary ChromaID technology.

### Products

TransTech products are as follows:

**ID Systems & Components:** Provision of ID personalization systems to the security industry. These systems include components such as ID cards, printers, software, supplies, data collection devices, document scanners, photo capture products, document authentication devices, and signature capture products.

**Logical and Physical Access Control:** Logical access readers used for logging onto computer networks and VPNs, physical access control readers used to gain access into buildings or secure areas, software such as visitor management & temporary card solutions, and additional applications outside of security.

**Radio Frequency Identification and Tracking:** These products include RF scanner, readers, cards, tags, labels, tracking software, and even video surveillance cameras to tie video clips of the asset or article movement to the personnel using them or to record other events surrounding asset and article movement.

### Markets

**Regions:** Revenues are derived from over 400 distributors and national account customers in the United States, with the majority in the Western region.

**Route to Market:** TransTech's focus is on its reseller channel. Approximately 90% of sales are through the reseller channel and government prime vendors. The remaining approximately 10% is direct to end users.

**Distribution Network Development:** TransTech is exploring a closer position with its direct channel for tighter market feedback, insurance against manufacturer's policies, and for financial benefits. This exploration includes partnering, LLCs, Joint Ventures, and potential acquisitions.

**Applications and Verticals:** The primary use of TransTech products is for security applications. These fit within many verticals, including but not limited to, commercial industries, manufacturing, distribution, transportation, government, health care, education, entertainment. In recent years there has been growth into several non-security applications such as gaming/player's cards, loyalty cards, gift cards, direct marketing, certifications, amusement, payment, and guest cards.

### Key Partners

**Customers:** We currently do not have any customer concentrations where one customer exceeds 10% of net revenues on an annual basis.

**Suppliers:** Evolis, Fargo, Magicard and NiSCA, are major vendors whose products account for approximately 70% of TransTech's revenue. Our products do not have any limit on availability, subject to proper payment of outstanding invoices.

### **Distribution Methods**

Distribution is fragmented in the security and authentication marketplace. There are large companies who increasingly sell directly to customers via the Internet and smaller regional and national distributors who sell to these same customers and provide value added services and support. Often called value added resellers or VARs, distributors such as TransTech work hard to maintain their customer relationships through the provision of outstanding service and support.

The Visualant technology will be primarily sold as IP, licensing and component parts of third party solutions and products. The sales and business development efforts are therefore focused on developing business relationships with those potential customers who have a need for faster, more accurate and lower cost discovery, authentication and verification of surfaces or substances via the spectral pattern creation, recording and storage capabilities provided by the Visualant ChromaID technology. These applications may be in the industrial, commercial or government security sector but the end user products most likely will be produced by a third party incorporating the Visualant scan head component as a part of the overall product.

The Visualant SPM technology, as focused upon the security and authentication marketplace will provide TransTech with higher margin proprietary products. Visualant will be able to leverage its built-in channel of distribution at TransTech and obtain speed to market advantage. At the same time, where appropriate, Visualant will utilize broad global channels of distribution for its SPM technology. We also expect to enter into joint ventures with co-development partners who may have their own channels of distribution.

## **Summary Financial Results**

### **Summary of Recent Business Operations for the Nine Months Ended June 30, 2013**

Net revenue for the nine months ended June 30, 2013 increased \$808,000 to \$6,334,000 as compared to \$5,526,000 for the nine months ended June 30, 2012. The increase was due to license revenue of \$667,000 from SPP and increased sales of \$5,667,000 at TransTech. Net revenue for the nine months ended June 30, 2012 reflected \$84,000 from SPP and sales of \$5,442,000 at TransTech. SPP paid the Company an initial payment of \$1 million under a License Agreement dated May 31, 2012 providing SPP with an exclusive license of our technology in identified Asian territories. This license revenue will be fully recognized by May 31, 2013. The TransTech increase primarily resulted from the release of new products.

Gross margin was \$667,000 for our license revenue and \$860,000 from TransTech for a total of \$1,527,000 as compared to \$1,013,000 for the nine months ended June 30, 2012. The gross margin was 24.1% for the nine months ended June 30, 2013 as compared to 18.3% for the nine months ended June 30, 2012. The increase relates to the SPP license revenue, offset by a reduction TransTech gross margin from 15.2% to 17.1% related to the release of new products.

Net loss for the nine months ended June 30, 2013 was \$5,463,000 as compared to a net loss of \$1,925,000 for the nine months ended June 30, 2012 for the reasons discussed above. The net loss included non-cash expenses of \$3,264,000. We expect losses to continue as we commercialize our ChromaID™ technology.

### **Summary of Recent Business Operations for the Year Ended September 30, 2012**

Net revenue for the year ended September 30, 2012 decreased \$1,212,000 to \$7,924,000 as compared to \$9,136,000 for the year ended September 30, 2011. The reduction was due to a large sale by TransTech to an aerospace company in the year ended September 30, 2011, which was not repeated in the year ended September 30, 2012.

Gross margin was \$334,000 for our license revenue and \$1,246,000 from TransTech for a total of \$1,580,000 as compared to \$1,566,000 for the year ended September 30, 2011. The gross margin was 19.9% for the year ended September 30, 2012 as compared to 17.7% for the year ended September 30, 2011. The increase relates to the SPP license revenue, offset by a reduction TransTech gross margin from 17.1% to 16.4% related to product mix.

Net loss for the year ended September 30, 2012 was \$2,726,000 as compared to a net loss of \$2,396,000 for the year ended September 30, 2011. The net loss included non-cash expenses of \$1,302,000 and other business development and investor relation expenditures to expand the business. Business development and investor relation expenditures include cash and issuances to develop markets, license agreements and an investor base for us.

## **Going Concern**

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. We incurred net losses of \$5,462,678 and \$2,725,692 for the nine months ended June 30, 2013 and the year ended September 30, 2012, respectively. Our net cash used in operating activities was \$2,468,603 for the nine months ended June 30, 2013.

We anticipate that we will record losses from operations for the foreseeable future. As of June 30, 2013, our accumulated deficit was \$19,378,609. We have limited capital resources, and operations to date have been funded with the proceeds from private equity and debt financings and loans from Ronald P. Erickson, our Chief Executive Officer. These conditions raise substantial doubt about our ability to continue as a going concern. The audit report prepared by our independent registered public accounting firm relating to our financial statements for the year ended September 30, 2012 includes an explanatory paragraph expressing the substantial doubt about our ability to continue as a going concern.

Our continuation as a going concern is dependent upon obtaining additional working capital. The financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

## **Material Financing Transactions**

### **Purchase Agreement with Special Situations and forty other Accredited Investors which closed June 14, 2013**

On June 10, 2013, we entered into a Purchase Agreement, Warrants, Registration Rights Agreement and Voting Agreement with Special Situations and forty other accredited investors pursuant to which we issued 52,300,000 shares of common stock at \$0.10 per share for a total of \$5,230,000, which amount includes the conversion of \$500,000 in outstanding debt of the Company owed to one of its officers. As part of the transaction, which closed June 14, 2013, we issued to the investors (i) five year Series A Warrants to purchase a total of 52,300,000 shares of common stock at \$0.15 per share; and (ii) five year Series B Warrants to purchase a total of 52,300,000 shares of common stock at \$0.20 per share. Since we had an insufficient number of authorized shares of common stock to permit the exercise of all of the Series A and Series B Warrants at the time the transaction closed, the Warrants were issued subject to authorization and approval of an increase in the number of authorized shares of the Company by its stockholders at a special meeting of the stockholders to be held in August 2013. We also agreed to file a registration statement on Form S-1 to register the resale of all shares issued in the transaction and use commercially reasonable efforts to have the registration statement declared effective as soon as practicable. The Company must pay damages if the registration statement is not declared effective within one hundred and twenty days of the June 14, 2013 closing of the transaction. In addition, we agreed to file a registration statement on Form S-1 to register the resale of all shares underlying the Warrants within five business days of the special meeting of the stockholders of Visualant approving the increase in the number of authorized shares.

We paid legal fees and expenses in the amount of \$35,000 to a law firm for Special Situations in connection with the transaction. We also paid sales commission and expenses of \$466,600 to GVC Capital and issued 5,230,000 placement agent warrants exercisable at \$0.10 per share, with an obligation to issue up to 5,230,000 additional placement agent warrants exercisable at \$0.15 per share. The \$0.15 placement agent warrants shall issue only upon the exercise of the Series A Warrants by the investors, and are issuable ratably based upon the number of Warrants exercised by the investors. The placement agent warrants have a term of five years from the date of closing of the transaction.

At a special meeting of the Company's stockholders held on August 9, 2013 our stockholders approved an increase in the number of authorized shares of common stock from 200,000,000 shares to 500,000,000 shares, and an amendment to our articles of incorporation to reflect this increase in the common share authorization was filed with the Nevada Secretary of State on August 12, 2013.

### **Equity Line of Credit Transaction with Ascendant dated June 17, 2011**

On June 17, 2011, we entered into a Securities Purchase Agreement with Ascendant, pursuant to which Ascendant agreed to purchase up to \$3,000,000 worth of shares of our common stock from time to time over a 24-month period, provided that certain conditions were met. The financing arrangement entered into by the Company and Ascendant is commonly referred to as an "equity line of credit" or an "equity drawdown facility."

Under the terms of the Securities Purchase Agreement, Ascendant was not obligated to purchase shares of our common stock unless and until certain conditions were met, including but not limited to the SEC declaring effective a Registration Statement on Form S-1 and the Company maintaining an effective Registration Statement which registered Ascendant's resale of any shares purchased by it under the equity drawdown facility. The customary terms and conditions associated with Ascendant's registration rights are set forth in a Registration Rights Agreement that was also entered into by the parties on June 17, 2011.

Once the registration was declared effective, we had the right to sell and issue to Ascendant, and Ascendant had the obligation to purchase from us, up to \$3,000,000 worth of shares of the Company's common stock over a 24-month period beginning on such date (the "Commitment Period"). We were entitled to sell such shares from time to time during the Commitment Period by delivering a draw down notice to Ascendant. In such draw down notices, the Company was required to specify the dollar amount of shares that it intended to sell to Ascendant, which was spread over a five-trading-day pricing period. For each draw, the Company was required to deliver the shares sold to Ascendant by the second trading day following the pricing period. Ascendant was entitled to liquidated damages in connection with certain delays in the delivery of its shares.

The Securities Purchase Agreement also provided for the following terms and conditions:

- Purchase Price - 90% of our volume-weighted average price ("VWAP") on each trading day during the five-trading-day pricing period, unless the lowest VWAP or closing bid price ("Market Price") on the trading day before settlement was lower, in which case the Purchase Price shall be the Market Price less \$.01.
- Threshold Price - We may specify a price below which we will not sell shares during the applicable five-trading-day pricing period. If the VWAP falls below the threshold price on any day(s) during the pricing period, such day(s) will be removed from the pricing period (and Ascendant's investment amount will be reduced by 1/5 for each such day).
- Maximum Draw - 20% of our total trading volume for the 10-trading-day period immediately preceding the applicable draw down, times the average VWAP during such period (but in no event more than \$100,000).
- Minimum Draw - None.
- Minimum Time Between Draw Down Pricing Periods - Three trading days.
- Minimum Use of Facility - We were not obligated to sell any shares of our common stock to Ascendant during the Commitment Period.
- Commitment and Legal Fees - Commitment fees of 5% (\$150,000), payable in shares of our common stock based on the following schedule: \$75,000 worth of restricted shares to be delivered at initial closing, \$25,000 worth of shares if and when the S-1 is declared effective, and \$25,000 worth of shares at 30 and 60 days). Legal fees were \$7,500. We issued 1,490,943 shares for these commitment and legal fees.
- Indemnification - Ascendant is entitled to customary indemnification from us for any losses or liabilities it suffers as a result of any breach by us of any provisions of the Securities Purchase Agreement, or as a result of any lawsuit brought by any of our stockholders (except stockholders who are officers, directors or principal stockholders of the Company).
- Conditions to Ascendant's Obligation to Purchase Shares - Trading in our common stock must not be suspended by the SEC or other applicable trading market; we must not have experienced a material adverse effect; all liquidated damages and other amounts owing to Ascendant must be paid in full; the Registration Statement must be effective with respect to Ascendant's resale of all shares purchased under the equity drawdown facility; there must be a sufficient number of authorized but unissued shares of our common stock; and the issuance must not cause Ascendant to own more than 9.99% of the then outstanding shares of our common stock.
- Termination - The Securities Purchase Agreement would terminate if our common stock was not listed on one of several specified trading markets (which include the NYSE AMEX, OTC Bulletin Board and Pink Sheets, among others); if we filed for protection from its creditors; or if the Registration Statement was not declared effective by the SEC by the date nine months following the date of the Securities Purchase Agreement. We had the right to terminate the Securities Purchase Agreement with five days' notice two years from the Registration Statement being declared effective or August 29, 2013.

The Securities Purchase Agreement also contained certain representations and warranties of the Company and Ascendant, including customary investment-related representations provided by Ascendant, as well as acknowledgements by Ascendant that it has reviewed certain disclosures of the Company (including the periodic reports that we have filed with the SEC) and that our issuance of the shares has not been registered with the SEC or qualified under any state securities laws. We provided customary representations regarding, among other things, its organization, capital structure, subsidiaries, disclosure reports, absence of certain legal or governmental proceedings, financial statements, tax matters, insurance matters, real property and other assets, and compliance with applicable laws and regulations. Our representations and warranties are qualified in their entirety (to the extent applicable) by our disclosures in the reports it files with the SEC. We also delivered confidential disclosure schedules qualifying certain of its representations and warranties in connection with executing and delivering the Securities Purchase Agreement.

The shares issued by the Company to Ascendant under the Securities Purchase Agreement were issued in private placements in reliance upon the exemption from the registration requirements set forth in the Securities Act provided for in Section 4(2) of the Securities Act, and the rules promulgated by the SEC thereunder.

We issued to Ascendant 6,358,933 shares for \$483,141 or \$.076 per shares under the Securities Purchase Agreement excluding the commitment and legal fees.

Our equity line of credit with Ascendant remains outstanding, with available credit of \$2,516,859. We have no current intention of further utilizing this line of credit, which expires August 29, 2013.

## **Agreements with Gemini Master Fund, Ltd. and Ascendant Capital Partners, LLC dated May 19, 2011**

On May 19, 2011, we entered into a Securities Purchase Agreement with Gemini and Ascendant, pursuant to which we issued \$1.2 million in principal amount of 10% convertible debentures (the "Original Debentures"), which were due May 1, 2012. The due date of the Original Debentures was extended to September 30, 2012 pursuant to a First Amendment to the Agreement on March 12, 2012, and further extended to September 30, 2013 pursuant to a Second Amendment to the Agreement on August 16, 2012. In addition, we issued 5-year warrants to Gemini and Ascendant to collectively purchase 2,400,000 shares of our common stock. The purchase price for the debentures was 83.3% of the face amount, resulting in our receiving \$1.0 million, less legal fees, placement agent fees, and expenses as set forth below. The Agreement included an additional investment right granted to Gemini and Ascendant, pursuant to which the Gemini and Ascendant had the right at any time until September 30, 2013, to purchase up to \$1.2 million in principal amount of Additional Debentures on the same terms and conditions as the Original Debentures, except that the conversion price on the Additional Debentures might have a higher floor. The conversion price on both the Original Debentures and the Additional Debentures were subject to a potential downward adjustment for any equity sales subsequent to the date of issuance. In conjunction with the purchase of the Additional Debentures, Gemini and Ascendant also had the right to purchase additional warrants. The full terms of the transactions with Gemini and Ascendant are set forth in the transaction agreements, copies of which were filed with the Company's 10-K for the year ended September 30, 2012 as Exhibits 10.1 through 10.10.

On August 28, 2012, we entered into a Warrant Purchase Agreement with Gemini and acquired the Gemini Warrant covering the purchase of up to 1.8 million shares, subject to adjustment, by paying \$250,000 on August 28, 2012 and agreeing to pay \$250,000 on or before November 30, 2012.

Ascendant also had a warrant for the purchase of up to 600,000 shares of our common stock at an original exercise price of \$.35 per share, which exercise price was subject to adjustment and which had been adjusted downward as of April 26, 2013, the date it was exercised by Ascendant.

We paid legal fees and expenses in the amount of \$12,500. Visualant also paid \$80,000 or 8.0% of the cash received and issued a five-year warrant for 192,000 shares in placement agent fees to Ascendant Capital Markets LLC.

During the year ended September 30, 2012, we modified the terms of the outstanding Original Debentures with the Gemini and Ascendant having an aggregate principal value of \$1,200,000. The maturity date was extended to September 30, 2013, Gemini and Ascendant converted principal and interest as outlined above at \$0.05 per share, and the Company paid a premium to Gemini in the form of redeeming its outstanding warrants for \$500,000. In addition, the additional investment and participation rights as defined in the Agreement granted to Gemini and Ascendant were extended from September 30, 2012 to September 30, 2013. The fair value of the warrants was calculated using the Black-Scholes-Merton option valuation model. The following assumptions were used to determine the fair value of the Warrants using the Black-Scholes valuation model: a term of five years, risk-free rate of 3.92%, volatility of 100%, and dividend yield of zero. Interest expense was recorded for the loss of \$500,000 related to the modification of the debentures. The difference between the conversion price and the fair market value of the common stock on the commitment date resulted in a beneficial conversion feature recorded of \$216,000. Total interest expense recognized, including the beneficial conversion feature was \$313,534 during the year ended September 30, 2012.

On January 30, 2013, the Company and Gemini and Ascendant entered into the following agreements dated January 23, 2013 but made effective as of the date of their execution by the parties:

(1) Warrant Purchase Agreement between the Company and Ascendant pursuant to which we agreed to repurchase the Ascendant Warrant for a purchase price of \$300,000, which amount was due in full on March 31, 2013. The purchase price was not paid in full on the due date and Ascendant was issued a total of 4,564,068 shares of common stock on April 26, 2013 as a result of Ascendant's cashless exercise of the Ascendant Warrant. On April 26, 2013, we entered into an Option Agreement with Ascendant pursuant to which we had the option to purchase from Ascendant 4,000,000 shares of common stock of the Company for a total purchase price of \$300,000. If purchased by us, the shares were expected to be retired to treasury. The option was required to be exercised and payment for the shares made on or before May 31, 2013. On May 31, 2013, the Company exercised its option to purchase the 4,000,000 Option Shares from Ascendant and paid to Ascendant the \$300,000 purchase price. To date, Ascendant has returned 2,284,525 of the 4,000,000 Option Shares and has failed to deliver the remaining 1,715,475 Option Shares. On June 17, 2013, the Company filed a Complaint against Ascendant in the Orange County Superior Court of California (Case No. 30-2013-00656770-CU-BC-CJC) for breach of contract, seeking damages, specific performance and injunctive relief against Ascendant. In our Complaint, we alleged that Ascendant breached its obligations under the Option Agreement by delivering to the Company only 2,284,525 of the 4,000,000 Option Shares and failing to deliver the remaining 1,715,475 Option Shares. We filed a motion for preliminary injunction with the California Superior Court, seeking preliminary injunctive relief requiring Ascendant to transfer the remaining 1,715,475 Option Shares to Visualant or, in the alternative, enjoining Ascendant from transferring, selling, or otherwise encumbering the Option Shares. The Complaint is currently being reviewed by the California Superior Court.

(2) Amendment to Warrant Purchase Agreement between the Company and Gemini dated January 23, 2013 extending the due date for payment of the balance of the purchase price, including accrued interest thereon, from November 30, 2012 to March 31, 2013. We accrued interest at 18% on the \$250,000 balance due to Gemini. We were in default on our payment obligation to Gemini, which entitled Gemini to exercise its warrant, potentially resulting in substantial additional dilution to our shareholders. On May 31, 2013, we paid \$250,000 plus interest of \$35,175 under the Amendment to Warrant Purchase Agreement with Gemini, in exchange for which we acquired the warrant from Gemini and cancelled it.

(3) AIR Termination Agreement between the Company and Gemini dated January 23, 2013 pursuant to which we acquired all additional investment rights or AIR of Gemini and Ascendant under the Securities Purchase Agreement dated May 19, 2011 for the sum of \$850,000, to be paid pursuant to the terms of a promissory note executed by the Company for the principal amount of \$850,000. The promissory note was payable in two installments of \$425,000 each, together with accrued interest thereon at the rate of 5% per annum, due on June 30, 2013 and September 30, 2013. If the payments were not made, we owed 120% of the balance due plus interest. On June 26, 2013, we acquired all additional investment rights between the Company and Gemini under the AIR Agreement with the payment of \$850,000 and interest of \$17,349.

There are not and have not been any disagreements between us and our accountants on any matter of accounting principles, practices, or financial statement disclosure during our two most recent fiscal years and subsequent interim period.

### *Dismissal of Madsen & Associates CPA's, Inc.*

On September 26, 2012, we dismissed Madsen & Associates CPA's, Inc. as our independent registered public accounting firm. The decision to change accountants was approved by our Audit Committee.

The Madsen reports on our consolidated financial statements for the past two fiscal years did not contain an adverse opinion or a disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles, except that the audit report of Madsen on our financial statements for fiscal years 2010 and 2011 contained an explanatory paragraph which noted that there was substantial doubt about our ability to continue as a going concern.

During our fiscal years ended December 31, 2010 and 2011 and through September 26, 2012, (i) there were no disagreements with Madsen on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to Madsen's satisfaction, would have caused Madsen to make reference to the subject matter of such disagreements in its reports on our consolidated financial statements for such years, and (ii) there were no reportable events as defined in Item 304(a)(1)(v) of Regulation S-K other than: At September 30, 2010, we reported no material weakness in internal control over financial reporting. At September 30, 2011 and during the interim periods through June 30, 2012, we reported a material weakness in internal control. While we have an audit committee, the financial expert is not independent and attended 50% of the committee meetings. We are currently reviewing the financial expert situation.

### *Engagement of PMB Helin Donovan LLP*

On September 26, 2012 we, upon the Audit Committee's approval, engaged the services of PMB Helin Donovan LLP as our new independent registered public accounting firm to audit our consolidated financial statements as of September 30, 2012 and for the year then ended. PMB performed no prior work on our financial statements. PMB has performed reviews of the unaudited consolidated quarterly financial statements included in our quarterly reports on Form 10-Q going forward.

## **DISCLOSURE OF COMMISSION POSITION ON INDEMNIFICATION FOR SECURITIES ACT LIABILITIES**

Under Nevada law, a corporation may include in its articles of incorporation ("Articles") a provision that eliminates or limits the personal liability of a director to the corporation or its stockholders for monetary damages as a result of any act or failure to act in his capacity as a director, except that no such provision may eliminate or limit the liability of a director (a) for any breach of his fiduciary duty as a director, (b) for acts or omissions not in good faith or that involve intentional misconduct, fraud or a knowing violation of law, (c) for conduct violating the Nevada General Corporation Law, or (d) for any transaction from which the director will personally receive a benefit in money, property or services to which the director is not legally entitled.

Section 78.7502 of the Nevada Revised Statutes or NRS provides, in general, that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, except an action by or in the right of the corporation, by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with the action, suit or proceeding if the person acted in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe the conduct was unlawful.

NRS Section 78.4502 also provides, in general, that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses, including amounts paid in settlement and attorneys' fees actually and reasonably incurred by the person in connection with the defense or settlement of the action or suit if the person acted in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the corporation; provided, however, that indemnification may not be made for any claim, issue or matter as to which such a person has been adjudged by a court of competent jurisdiction, after exhaustion of all appeals therefrom, to be liable to the corporation or for amounts paid in settlement to the corporation, unless and only to the extent that the court in which the action or suit was brought or other court of competent jurisdiction determines upon application that in view of all the circumstances of the case, the person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

Any indemnification pursuant to the above provisions may be made by the corporation only as authorized in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances. The determination must be made: (a) by the stockholders; (b) by the Board of Directors by majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding; (c) if a majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding so orders, by independent legal counsel in a written opinion; or (d) if a quorum consisting of directors who were not parties to the action, suit or proceeding cannot be obtained, by independent legal counsel in a written opinion.

Under Article X of the Company's Amended and Restated Articles of Incorporation, the personal liability of all its directors is eliminated to the fullest extent allowed by Nevada law. In addition, a director shall not be personally liable to the corporation or its stockholders for monetary damages for conduct as a director, except for liability (a) for acts or omissions that involve intentional misconduct or a knowing violation of law; (b) for conducting violating the Nevada General Corporation Law; or (c) for any transaction from which the director will personally receive a benefit in money, property or services to which the director is not legally entitled.

Article XI of the Articles of Incorporation also provides for indemnification of the Company's directors and officers, and authorizes the Company to purchase and maintain insurance or make other financial arrangements on behalf of any director, officer, agent or employee of the corporation, for any liability asserted against him and for expenses incurred by him in his capacity as a director, officer, employee or agent, arising out of his status as such, whether or not the corporation has the authority to indemnify him against such liability and expenses.

The Company currently has a directors' and officers' liability insurance policy in place pursuant to which its directors and officers are insured against certain liabilities, including certain liabilities under the Securities Act of 1933, as amended or Securities A and the Securities and Exchange Act of 1934, as amended or Exchange Act.

Insofar as indemnification for liabilities arising out of the Securities Act may be permitted to directors, officers or persons controlling the Company pursuant to the provisions described above, we have been informed that, in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**1. ORGANIZATION**

Visualant, Inc. (the “Company” or “Visualant”) was incorporated under the laws of the State of Nevada on October 8, 1998 with authorized common stock of 500,000,000 shares at \$0.001 par value. On September 13, 2002, 50,000,000 shares of preferred stock with a par value of \$0.001 were authorized by the shareholders. There are no preferred shares issued and the terms have not been determined. The Company’s executive offices are located in Seattle, Washington.

The Company has invented a way to shine light at a material (solid surface, liquid, or gas) and measure the amount of light that is reflected back. The pattern of this reflected light is compared to other patterns the Company has captured and this allows the Company to identify, detect, or diagnose materials that cannot be identified by the human eye. The Company refers to this pattern of reflected light as a ChromaID™. The Company designs ChromaID Scanner devices made with electronic, optical, and software parts to produce and capture the light.

The Company’s first product, the ChromaID F12 Lab Kit, scans and identifies solid surfaces. The Company is marketing this product to customers who are considering licensing the technology. Target markets include, but are not limited to, commercial paint manufacturers, pharmaceutical equipment manufacturers, process control companies, currency paper and ink manufacturers, security card, reader, and scanner manufacturers, food processing, and electronic gaming.

Through our wholly owned subsidiary, TransTech Systems, Inc., based in Aurora, Oregon, the Company provides value added security and authentication solutions to corporate and government security and law enforcement markets throughout the United States.

On June 10, 2013, the Company entered into a Purchase Agreement, Warrants, Registration Rights Agreement and Voting Agreement with Special Situations and forty other accredited investors pursuant to which we issued 52,300,000 shares of common stock at \$0.10 per share for a total of \$5,230,000, which amount includes the conversion of \$500,000 in outstanding debt of the Company owed to one of its officers. As part of the transaction which closed on June 14, 2013, the Company issued to the investors (i) five year Series A Warrants to purchase a total of 52,300,000 shares of common stock at \$0.15 per share; and (ii) five year Series B Warrants to purchase a total of 52,300,000 shares of common stock at \$0.20 per share. The transaction was entered into to strengthen our balance sheet, complete the purchase of our TransTech subsidiary, and provide working capital to support the rapid movement of our ChromaID technology into the marketplace.

The Company has a Joint Development Agreement through December 31, 2013 with Sumitomo Precision Products Co., Ltd., which focuses on the commercialization of the ChromaID™ technology as well as a License Agreement providing SPP with an exclusive license of the ChromaID™ technology in identified Asian territories. **2. GOING CONCERN**

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company incurred net losses of \$5,462,678 and \$2,725,692 for the nine months ended June 30, 2013 and the year ended September 30, 2012, respectively. Our net cash used in operating activities was \$2,468,603 for the nine months ended June 30, 2013.

The Company anticipates that it will record losses from operations for the foreseeable future. As of June 30, 2013, our accumulated deficit was \$19,378,609. The Company has limited capital resources, and operations to date have been funded with the proceeds from private equity and debt financings and loans from Ronald P. Erickson, our Chief Executive Officer. These conditions raise substantial doubt about our ability to continue as a going concern. The audit report prepared by our independent registered public accounting firm relating to our financial statements for the year ended September 30, 2012 includes an explanatory paragraph expressing the substantial doubt about our ability to continue as a going concern.

Continuation of the Company as a going concern is dependent upon obtaining additional working capital. The financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

**3. SIGNIFICANT ACCOUNTING POLICIES: ADOPTION OF ACCOUNTING STANDARDS**

**PRINCIPLES OF CONSOLIDATION** - The consolidated financial statements include the accounts of the Company and its wholly owned and majority-owned subsidiaries. Inter-Company items and transactions have been eliminated in consolidation.

**CASH AND CASH EQUIVALENTS** - The Company classifies highly liquid temporary investments with an original maturity of three months or less when purchased as cash equivalents. The Company maintains cash balances at various financial institutions. Balances at US banks are insured by the Federal Deposit Insurance Corporation up to \$250,000. Beginning December 31, 2010 and through December 31, 2013, all noninterest-bearing transaction accounts are fully insured, regardless of the balance of the account, at all FDIC-insured institutions. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant risk for cash on deposit.

**VISUALANT, INCORPORATED AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS** - Accounts receivable consist primarily of amounts due to the Company from normal business activities. The Company maintains an allowance for doubtful accounts to reflect the expected non-collection of accounts receivable based on past collection history and specific risks identified within the portfolio. If the financial condition of the customers were to deteriorate resulting in an impairment of their ability to make payments, or if payments from customers are significantly delayed, additional allowances might be required.

**INVENTORIES** - Inventories consist primarily of printers and consumable supplies, including ribbons and cards, badge accessories, capture devices, and access control components held for resale and are stated at the lower of cost or market on the first-in, first-out ("FIFO") method. Inventories are considered available for resale when drop shipped and invoiced directly to a customer from a vendor, or when physically received by TransTech at a warehouse location. The company records a provision for excess and obsolete inventory whenever an impairment has been identified. There is a \$10,000 reserve for impaired inventory as of June 30, 2013 and September 30, 2012.

**EQUIPMENT** - Equipment consists of machinery, leasehold improvements, furniture and fixtures and software, which are stated at cost less accumulated depreciation and amortization. Depreciation is computed by the straight-line method over the estimated useful lives or lease period of the relevant asset, generally 2-10 years, except for leasehold improvements which are depreciated over 5-20 years.

**INTANGIBLE ASSETS / INTELLECTUAL PROPERTY** – The Company amortizes the intangible assets and intellectual property acquired in connection with the acquisition of TransTech, over sixty months on a straight - line basis, which was the time frame that the management of the Company was able to project forward for future revenue, either under agreement or through expected continued business activities. Intangible assets and intellectual property acquired from RATLab LLC and Javelin are recorded likewise.

**GOODWILL** – Goodwill is the excess of cost of an acquired entity over the fair value of amounts assigned to assets acquired and liabilities assumed in a business combination. With the adoption of ASC 350, goodwill is not amortized, rather it is tested for impairment annually, and will be tested for impairment between annual tests if an event occurs or circumstances change that would indicate the carrying amount may be impaired. Impairment testing for goodwill is done at a reporting unit level. Reporting units are one level below the business segment level, but are combined when reporting units within the same segment have similar economic characteristics. Under the criteria set forth by ASC 350, the Company has one reporting unit based on the current structure. An impairment loss generally would be recognized when the carrying amount of the reporting unit's net assets exceeds the estimated fair value of the reporting unit. The Company performs annual assessments and has determined that no impairment is necessary.

**LONG-LIVED ASSETS** – The Company reviews its long-lived assets for impairment when changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Long-lived assets under certain circumstances are reported at the lower of carrying amount or fair value. Assets to be disposed of and assets not expected to provide any future service potential to the Company are recorded at the lower of carrying amount or fair value (less the projected cost associated with selling the asset). To the extent carrying values exceed fair values, an impairment loss is recognized in operating results.

**FAIR VALUE MEASUREMENTS AND FINANCIAL INSTRUMENTS** – ASC Topic 820, *Fair Value Measurement and Disclosures*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. This topic also establishes a fair value hierarchy, which requires classification based on observable and unobservable inputs when measuring fair value. The fair value hierarchy distinguishes between assumptions based on market data (observable inputs) and an entity's own assumptions (unobservable inputs). The hierarchy consists of three levels:

Level 1 – Quoted prices in active markets for identical assets and liabilities;

Level 2 – Inputs other than level one inputs that are either directly or indirectly observable; and

**VISUALANT, INCORPORATED AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

Level 3 – Unobservable inputs developed using estimates and assumptions, which are developed by the reporting entity and reflect those assumptions that a market participant would use.

Financial Instruments	Fair Value Measurements Using Inputs			Carrying Amount at June 30, 2013
	Level 1	Level 2	Level 3	
Liabilities:				
Derivative Instruments - Warrants	\$ -	\$ 4,184,000	\$ -	\$ 4,184,000
Total	\$ -	\$ 4,184,000	\$ -	\$ 4,184,000

Liabilities measured at fair value on a recurring basis are summarized as follows:

	June 30, 2013
Market price and estimated fair value of common stock:	\$ 0.090
Exercise price	\$ 0.15-0.20
Expected term (years)	3-5 years
Dividend yield	-
Expected volatility	82%
Risk-free interest rate	1.3%

The risk-free rate of return reflects the interest rate for the United States Treasury Note with similar time-to-maturity to that of the warrants.

The recorded value of other financial assets and liabilities, which consist primarily of cash and cash equivalents, accounts receivable, other current assets, and accounts payable and accrued expenses approximate the fair value of the respective assets and liabilities at June 30, 2013 and 2012 based upon the short-term nature of the assets and liabilities.

**Derivative Instruments - Warrants**

The Company issued 104,600,000 warrants in connection with the June 2013 Private Placement of 52,300,000 shares of common stock. The strike price of these warrants is \$0.15 to \$0.20 per share. These warrants were not issued with the intent of effectively hedging any future cash flow, fair value of any asset, liability or any net investment in a foreign operation. These warrants were issued with a down-round provision whereby the exercise price would be adjusted downward in the event that additional shares of the Company's common stock or securities exercisable, convertible or exchangeable for the Company's common stock were issued at a price less than the exercise price. Therefore, the fair value of these warrants were recorded as a liability in the consolidated balance sheet and are marked to market each reporting period until they are exercised or expire or otherwise extinguished.

The proceeds from the Private Placement were allocated between the Common Shares and the Warrants issued in connection with the Private Placement based upon their estimated fair values as of the closing date at June 14, 2013, resulting in the aggregate amount of \$2,494,710 to the Stockholders' Equity and \$2,735,290 to the warrant derivative. During 2013, the Company recognized \$1,448,710 of other expense resulting from the increase in the fair value of the warrant liability at June 30, 2013.

**REVENUE RECOGNITION** – TransTech revenue is derived from other products and services. Revenue is considered realized when the services have been provided to the customer, the work has been accepted by the customer and collectability is reasonably assured. Furthermore, if an actual measurement of revenue cannot be determined, we defer all revenue recognition until such time that an actual measurement can be determined. If during the course of a contract management determines that losses are expected to be incurred, such costs are charged to operations in the period such losses are determined. Revenues are deferred when cash has been received from the customer but the revenue has not been earned. The SPP License fee is being recorded as revenue over the life the Joint Development Agreement discussed below. The Company recorded deferred revenue of \$0 and \$666,667 as of June 30, 2013 and September 30, 2012, respectively.

**STOCK BASED COMPENSATION** - The Company has share-based compensation plans under which employees, consultants, suppliers and directors may be granted restricted stock, as well as options to purchase shares of Company common stock at the fair market value at the time of grant. Stock-based compensation cost is measured by the Company at the grant date, based on the fair value of the award, over the requisite service period. For options issued to employees, the Company recognizes stock compensation costs utilizing the fair value methodology over the related period of benefit. Grants of stock options and stock to non-employees and other parties are accounted for in accordance with the ASC 505.

**VISUALANT, INCORPORATED AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**INCOME TAXES** - Income tax benefit is based on reported loss before income taxes. Deferred income taxes reflect the effect of temporary differences between asset and liability amounts that are recognized for financial reporting purposes and the amounts that are recognized for income tax purposes. These deferred taxes are measured by applying currently enacted tax laws where that company operates out of. The Company recognizes refundable and deferred assets to the extent that management has determined their realization. As of June 30, 2013 and September 30, 2012, the Company had refundable tax assets related to TransTech of \$30,045 and \$29,316, respectively.

**NET LOSS PER SHARE** – Under the provisions of ASC 260, “Earnings Per Share,” basic loss per common share is computed by dividing net loss available to common shareholders by the weighted average number of shares of common stock outstanding for the periods presented. Diluted net loss per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that would then share in the income of the Company, subject to anti-dilution limitations. The common stock equivalents have not been included as they are anti-dilutive. As of June 30, 2013, there were options outstanding for the purchase of 11,005,000 common shares, warrants for the purchase of 112,357,050 common shares, and an undetermined number shares of common stock related to convertible debt, which could potentially dilute future earnings per share. As of June 30, 2012, there were options outstanding for the purchase of 9,020,000 common shares, warrants for the purchase of 4,977,051 common shares, and an undetermined number shares of common stock related to convertible debt, which could potentially dilute future earnings per share.

**DIVIDEND POLICY** - The Company has never paid any cash dividends and intends, for the foreseeable future, to retain any future earnings for the development of our business. Our future dividend policy will be determined by the board of directors on the basis of various factors, including our results of operations, financial condition, capital requirements and investment opportunities.

**USE OF ESTIMATES** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**RECENT ACCOUNTING PRONOUNCEMENTS**

A variety of proposed or otherwise potential accounting standards are currently under study by standard setting organizations and various regulatory agencies. Due to the tentative and preliminary nature of those proposed standards, management has not determined whether implementation of such proposed standards would be material to our consolidated financial statements.

**4. DEVELOPMENT OF CHROMAID™ TECHNOLOGY**

**The Company’s ChromaID™ Technology**

Determining Fair Value Under ASC 505

The Company records compensation expense associated with stock options and other equity-based compensation using the Black-Scholes-Merton option valuation model for estimating fair value of stock options granted under our plan. The Company amortizes the fair value of stock options on a ratable basis over the requisite service periods, which are generally the vesting periods. The expected life of awards granted represents the period of time that they are expected to be outstanding. The Company estimates the volatility of our common stock based on the historical volatility of its own common stock over the most recent period corresponding with the estimated expected life of the award. The Company bases the risk-free interest rate used in the Black Scholes-Merton option valuation model on the implied yield currently available on U.S. Treasury zero-coupon issues with an equivalent remaining term equal to the expected life of the award. The Company has not paid any cash dividends on our common stock and does not anticipate paying any cash dividends in the foreseeable future. Consequently, the Company uses an expected dividend yield of zero in the Black-Scholes-Merton option valuation model and adjusts share-based compensation for changes to the estimate of expected equity award forfeitures based on actual forfeiture experience. The effect of adjusting the forfeiture rate is recognized in the period the forfeiture estimate is changed.

Stock Option Activity

Stock option grants totaling 5,100,000 shares of common stock have been made to three directors and four employees for services provided during 2012. These options were authorized for issuance under the 2011 Stock Incentive Plan and were effective March 21, 2013, when the Company was authorized to issue options up to 14,000,000 shares under the 2011 Stock Incentive Plan at the Annual Stockholder Meeting.

***Report of Independent Registered Public Accounting Firm***

The Board of Directors and Shareholders  
Visualant, Inc.:

We have audited the accompanying balance sheets of Visualant, Inc. (the "Company") as of September 30, 2012 and the related statements of operations, stockholders' equity (deficit), and cash flows for the year ended September 30, 2012. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Visualant, Inc. as of September 30, 2012, and the results of its operations and its cash flows for the year ended September 30, 2012, in conformity with generally accepted accounting principles in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the financial statements, the Company has sustained a net loss from operations and has an accumulated deficit since inception. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in this regard are also described in Note 1. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

**VISUALANT, INCORPORATED AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**1. ORGANIZATION**

Visualant, Inc. (the "Company" or "Visualant") was incorporated under the laws of the State of Nevada on October 8, 1998 with authorized common stock of 200,000,000 shares at \$0.001 par value. On September 13, 2002, 50,000,000 shares of preferred stock with a par value of \$0.001 were authorized by the shareholders. There are no preferred shares issued and the terms have not been determined. The Company's executive offices are located in Seattle, Washington.

The Company developed a unique patented Visualant Spectral Pattern Matching™ "SPM" technology. This technology directs structured light onto a physical substance to capture a Visualant Spectral Signature™ called a ChromaID™. When matched against existing databases, the ChromaID can be used to identify, detect, or diagnose markers invisible to the human eye. ChromaID scanners can be integrated into a variety of mobile or fixed-mount form factors, making it possible to effectively conduct analyses in the field that could only previously be performed by large and expensive lab-based tests.

The Company entered into a one year Joint Development Agreement on May 31, 2012 with Sumitomo Precision Products Co., Ltd. ("SPP"), which focuses on the commercialization of the SPM technology and a License Agreement providing SPP with an exclusive license of the SPM technology in identified Asian territories.

SPP is publicly traded on the Tokyo and Osaka Stock Exchanges and has operations in Japan, United States, China, United Kingdom, Canada and other parts of the world.

Through the Company's wholly owned subsidiary, TransTech based in Aurora, Oregon, the Company provides value added security and authentication solutions to corporate and government security and law enforcement markets throughout the United States.

**2. GOING CONCERN**

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has incurred net losses of \$2,725,692 and \$2,395,525 for the years ended September 30, 2012 and 2011, respectively. The Company's current liabilities exceeded its current assets by approximately \$2.4 million as of September 30, 2012. Our net cash used in operating activities was \$58,174 for the year ended September 30, 2012.

As of September 30, 2012, the Company had \$1,141,165 in cash. The Company needs to obtain additional financing to implement its business plan and service our debt repayments. However, there can be no assurance that financing or additional funding will be available to the Company on favorable terms or at all. If the Company raises additional capital through the sale of equity or convertible debt securities, the issuance of such securities may result in dilution to existing stockholders.

The Company anticipates that it will record losses from operations for the foreseeable future. As of September 30, 2012, our accumulated deficit was \$13.9 million. The Company has limited capital resources, and operations to date have been funded with the proceeds from private equity and debt financings. These conditions raise substantial doubt about our ability to continue as a going concern. The audit report prepared by our independent registered public accounting firm relating to our financial statements for the year ended September 30, 2012 includes an explanatory paragraph expressing the substantial doubt about our ability to continue as a going concern.

Continuation of the Company as a going concern is dependent upon obtaining additional working capital. The financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

**3. SIGNIFICANT ACCOUNTING POLICIES: ADOPTION OF ACCOUNTING STANDARDS**

**PRINCIPLES OF CONSOLIDATION** - The consolidated financial statements include the accounts of the Company and its wholly owned and majority-owned subsidiaries. Inter-Company items and transactions have been eliminated in consolidation.

**CASH AND CASH EQUIVALENTS** - The Company classifies highly liquid temporary investments with an original maturity of three months or less when purchased as cash equivalents. The Company maintains cash balances at various financial institutions. Balances at US banks are insured by the Federal Deposit Insurance Corporation up to \$250,000. Beginning December 31, 2010 and through December 31, 2012, all noninterest-bearing transaction accounts are fully insured, regardless of the balance of the account, at all FDIC-insured institutions. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant risk for cash on deposit. As of September 30, 2012, the Company had no uninsured cash.

**VISUALANT, INCORPORATED AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS** - Accounts receivable consists primarily of amounts due to the Company from normal business activities. The Company maintains an allowance for doubtful accounts to reflect the expected non-collection of accounts receivable based on past collection history and specific risks identified within the portfolio. If the financial condition of the customers were to deteriorate resulting in an impairment of their ability to make payments, or if payments from customers are significantly delayed, additional allowances might be required.

**INVENTORIES** - Inventories consist primarily of printers and consumable supplies, including ribbons and cards, badge accessories, capture devices, and access control components held for resale and are stated at the lower of cost or market on the first-in, first-out ("FIFO") method. Inventories are considered available for resale when drop shipped and invoiced directly to a customer from a vendor, or when physically received by TransTech at a warehouse location. The company records a provision for excess and obsolete inventory whenever an impairment has been identified. There is a \$10,000 reserve for impaired inventory as of September 30, 2012 and 2011.

**EQUIPMENT** - Equipment consists of machinery, leasehold improvements, furniture and fixtures and software, which are stated at cost less accumulated depreciation and amortization. Depreciation is computed by the straight-line method over the estimated useful lives or lease period of the relevant asset, generally 2-10 years, except for leasehold improvements which are depreciated over 5-20 years.

**INTANGIBLE ASSETS / INTELLECTUAL PROPERTY** - The Company amortizes the intangible assets and intellectual property acquired in connection with the acquisition of TransTech Systems, Inc. ("TransTech"), over sixty months on a straight - line basis, which was the time frame that the management of the Company was able to project forward for future revenue, either under agreement or through expected continued business activities. Intangible assets and intellectual property acquired from RATLab LLC ("RATLab") and Javelin LLC ("Javelin") are recorded likewise.

**GOODWILL** - Goodwill is the excess of cost of an acquired entity over the fair value of amounts assigned to assets acquired and liabilities assumed in a business combination. With the adoption of ASC 350, goodwill is not amortized, rather it is tested for impairment annually, and will be tested for impairment between annual tests if an event occurs or circumstances change that would indicate the carrying amount may be impaired. Impairment testing for goodwill is done at a reporting unit level. Reporting units are one level below the business segment level, but are combined when reporting units within the same segment have similar economic characteristics. Under the criteria set forth by ASC 350, the Company has one reporting unit based on the current structure. An impairment loss generally would be recognized when the carrying amount of the reporting unit's net assets exceeds the estimated fair value of the reporting unit. The Company performs annual assessments and has determined that no impairment is necessary.

**LONG-LIVED ASSETS** - The Company reviews its long-lived assets for impairment when changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Long-lived assets under certain circumstances are reported at the lower of carrying amount or fair value. Assets to be disposed of and assets not expected to provide any future service potential to the Company are recorded at the lower of carrying amount or fair value (less the projected cost associated with selling the asset). To the extent carrying values exceed fair values, an impairment loss is recognized in operating results.

**FAIR VALUE MEASUREMENTS**- Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value hierarchy contains three levels as follows:

*Level 1* - Unadjusted quoted prices that are available in active markets for the identical assets or liabilities at the measurement date.

*Level 2* - Other observable inputs available at the measurement date, other than quoted prices included in Level 1, either directly or indirectly, including:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets in nonactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by other observable market data.

**VISUALANT, INCORPORATED AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

*Level 3* - Unobservable inputs that cannot be corroborated by observable market data and reflect the use of significant management judgment. These values are generally determined using pricing models for which the assumptions utilize management's estimates of market participant assumptions.

*Assets and Liabilities that are Measured at Fair Value on a Recurring Basis.* The Company accounts for fair value measurements in accordance with ASC 820, *Fair Value Measurements and Disclosures*, which defines fair value, establishes a framework for measurement and expands disclosure about fair value measurement. The fair value hierarchy requires the use of observable market data when available. In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

**REVENUE RECOGNITION** – TransTech revenue is derived from other products and services. Revenue is considered realized when the services have been provided to the customer, the work has been accepted by the customer and collectability is reasonably assured. Furthermore, if an actual measurement of revenue cannot be determined, we defer all revenue recognition until such time that an actual measurement can be determined. If during the course of a contract management determines that losses are expected to be incurred, such costs are charged to operations in the period such losses are determined. Revenues are deferred when cash has been received from the customer but the revenue has not been earned. The Sumitomo Precision Products License fee is being recorded as revenue over the life the Joint Development Agreement discussed below. The Company recorded deferred revenue of \$666,667 and \$0 as of September 30, 2012 and 2011, respectively.

**STOCK BASED COMPENSATION** - The Company has share-based compensation plans under which employees, consultants, suppliers and directors may be granted restricted stock, as well as options to purchase shares of Company common stock at the fair market value at the time of grant. Stock-based compensation cost is measured by the Company at the grant date, based on the fair value of the award, over the requisite service period. For options issued to employees, the Company recognizes stock compensation costs utilizing the fair value methodology over the related period of benefit. Grants of stock options and stock to non-employees and other parties are accounted for in accordance with the ASC 505.

**INCOME TAXES** - Income tax benefit is based on reported loss before income taxes. Deferred income taxes reflect the effect of temporary differences between asset and liability amounts that are recognized for financial reporting purposes and the amounts that are recognized for income tax purposes. These deferred taxes are measured by applying currently enacted tax laws where that company operates out of. The Company recognizes refundable and deferred assets to the extent that management has determined their realization. As of September 30, 2012 and September 30, 2011, the Company had refundable tax assets related to TransTech of \$29,316 and \$9,080, respectively.

**NET LOSS PER SHARE** – Under the provisions of ASC 260, "Earnings Per Share," basic loss per common share is computed by dividing net loss available to common shareholders by the weighted average number of shares of common stock outstanding for the periods presented. Diluted net loss per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that would then share in the income of the Company, subject to anti-dilution limitations. The common stock equivalents have not been included as they are anti-dilutive. As of September 30, 2012, there were options outstanding for the purchase of 5,920,000 common shares, warrants for the purchase of 3,369,050 common shares, and an undetermined number shares of common stock related to convertible debt, which could potentially dilute future earnings per share. As of September 30, 2011, there were options outstanding for the purchase of 6,920,000 common shares, warrants for the purchase of 4,569,050 common shares, an undetermined number shares of common stock related to convertible debt, which could potentially dilute future earnings per share.

**DIVIDEND POLICY** - The Company has never paid any cash dividends and intends, for the foreseeable future, to retain any future earnings for the development of our business. Our future dividend policy will be determined by the board of directors on the basis of various factors, including our results of operations, financial condition, capital requirements and investment opportunities.

**USE OF ESTIMATES** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**RECENT ACCOUNTING PRONOUNCEMENTS**

Recent accounting pronouncements applicable to the Company are summarized below.

**VISUALANT, INCORPORATED AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

On May 12, 2011, the FASB issued ASU 2011-04, *Fair Value Measurement*, which requires measurement uncertainty disclosure in the form of a sensitivity analysis of unobservable inputs to reasonable alternative amounts for all Level 3 recurring fair value measurements. ASU 2011-04 became effective for interim and annual periods beginning on or after December 15, 2011. The Company adopted this guidance in the third quarter of Fiscal 2012. The adoption of this guidance requires additional disclosures, but did not have any impact on the Company's consolidated results of operations, financial position, or cash flows.

On June 16, 2011, the FASB issued ASU 2011-05, *Presentation of Comprehensive Income*, which revised the manner in which entities present comprehensive income in their financial statements. ASU 2011-05 is effective for fiscal years beginning after December 15, 2011 (our Fiscal 2013). The Company does not believe that the adoption of this will have a significant impact on its consolidated financial statements.

In September 2011, the FASB issued ASU 2011-08, *Testing Goodwill for Impairment*, which simplified the manner in which entities test goodwill for impairment. After assessment of certain qualitative factors, if it is determined to be more likely than not that the fair value of a reporting unit is less than its carrying amount, entities must perform a quantitative analysis of the goodwill impairment test. Otherwise, the quantitative test becomes optional. ASU 2011-08 is effective for fiscal years beginning after December 15, 2011 (our Fiscal 2013). The Company does not believe that the adoption of this will have a significant impact on its consolidated financial statements.

A variety of proposed or otherwise potential accounting standards are currently under study by standard setting organizations and various regulatory agencies. Due to the tentative and preliminary nature of those proposed standards, management has not determined whether implementation of such proposed standards would be material to our consolidated financial statements.

#### **4. DEVELOPMENT OF SPECTRUM PATTERN MATCHING TECHNOLOGY**

The Company has developed a unique patented Visualant Spectral Pattern Matching™ "SPM" technology. This technology directs structured light onto a physical substance to capture a Visualant Spectral Signature™ called a ChromaID™. When matched against existing databases, the ChromaID can be used to identify, detect, or diagnose markers invisible to the human eye. ChromaID scanners can be integrated into a variety of mobile or fixed-mount form factors, making it possible to effectively conduct analyses in the field that could only previously be performed by large and expensive lab-based tests.

Visualant Spectral Pattern Matching and the ChromaID profile were developed over a seven year period by Professors Dr. Tom Furness and Dr. Brian Showngerdt of RATLab LLC under contract to Visualant. The technology is now being transferred into products and a ScanHead module. Visualant has partnered with Sumitomo Precision Products to manufacture the ScanHead and reduce the technology to a reliable and cost effective form. The first demonstration of this is the Cyclops6 ChromaID Scanner which was demonstrated at the Japanese Instrumentation Manufacturing Association trade show in Tokyo in October 2012. The Cyclops 6 ChromaID Scanner can be used to evaluate the technology for flat surface applications and has sensitivity from 350nm to 1450nm.

Visualant is pursuing an aggressive patent strategy to expand our unique intellectual property in the United States and Japan. The following patents have been issued to date:

On September 6, 2011, the Company announced that it was issued US Patent No. 7,996,173, entitled "Method, Apparatus and Article to Facilitate Distributed Evaluation of Objects Using Electromagnetic Energy," by the United States Office of Patents and Trademarks.

On January 19, 2012, the Company announced that it was issued US Patent No. 8,081,304, entitled "Method, Apparatus and Article to Facilitate Evaluation of Objects Using Electromagnetic Energy" by the United States Office of Patents and Trademarks.

On March 20, 2012, the Company announced that it was issued US Patent No. 8,076,630, entitled "System and Method of Evaluating an Object Using Electromagnetic Energy" by the United States Office of Patents and Trademarks.

On November 1, 2012, the Company announced that it was issued US Patent No. 8,285,510 entitled "System and Method of Evaluating an Object Using Electromagnetic Energy" by the United States Office of Patents and Trademarks.

On June 7, 2011, the Company closed the acquisition of all Visualant related assets of the RATLab LLC ("RATLab"). The RATLab is a Seattle based research and development laboratory created by Dr. Tom Furness, founder and Director of the HITLab International, with labs at Seattle, University of Canterbury in New Zealand, and the University of Tasmania in Australia. With this acquisition, the Company consolidated all intellectual property relating to the SPM technology except for environmental field of use. The Company acquired the Visualant related assets of the RATLab for (i) 1,000,000 shares of our common stock at closing valued at \$0.20 per share, the price during the negotiation of this agreement; (ii) \$250,000 (paid); and (iii) payment of the outstanding promissory note owing to Mr. Furness in the amount of \$65,000 with accrued interest of \$24,675 (paid).

**VISUALANT, INCORPORATED AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

SPP invested \$2,250,000 in exchange for 17,307,693 shares of restricted common shares priced at \$0.13 per share that was funded on June 21, 2012. SPP also paid the Company an initial payment of \$1 million in accordance with the terms of the License Agreement filed by the Company with its Form 8-K filed June 4, 2012. A running royalty for the license granted under the License Agreement will be negotiated at the completion of the Joint Development Agreement.

SPP is publicly traded on the Tokyo and Osaka Stock Exchanges and has operations in Japan, United States, China, United Kingdom, Canada and other parts of the world.

**6. ACQUISITION OF TRANSTECH**

The Company closed the acquisition of TransTech of Aurora, Oregon on June 8, 2010. On this date, the Company entered into a Stock Purchase, Security and Stock Pledge Agreements which are included as Exhibits to the Form 10-Q filed with the SEC on August 12, 2010.

TransTech, founded in 1994, is a distributor of access control and authentication systems serving the security and law enforcement markets. With recorded revenues of \$7.6 million in 2012, TransTech has a respected national reputation for outstanding product knowledge, sales and service excellence.

This acquisition is expected to accelerate market entry and penetration through the acquisition of well-operated and positioned distributors of security and authentication systems like TransTech, thus creating a natural distribution channel for products featuring the company’s proprietary SPM technology.

The Company acquired its 100% interest in TransTech by issuing a Promissory Note (“Note”) to James Gingo, the President of TransTech, in the amount of \$2,300,000, plus interest at the rate of three and one-half percent (3.5%) per annum from the date of the Note. The Note is secured by a security interest in the stock and assets of TransTech, and is payable over a period of three (3) years.

On June 8, 2010, the Company issued a total of 3,800,000 shares of restricted common stock of the Company to James Gingo, Jeff Kruse and Steve Waddle, executives of TransTech, and Paul Bonderson, a TransTech investor. The parties valued the shares in this transaction at \$76,000 or \$0.02 per share, the closing bid price during negotiations.

**7. ACCOUNTS RECEIVABLE/CUSTOMER CONCENTRATION**

Accounts receivable were \$1,012,697 and \$823,724, net of allowance, as of September 30, 2012 and 2011, respectively. The purchase price for the debentures was 83.3% of the face amount, resulting in the Company receiving \$1.0 million, less legal fees, placement agent fees and expenses as set forth below. The Agreement includes an additional investment right granted to the Investors, pursuant to which the Investors have the right at any time until September 30, 2013, to purchase up to \$1.2 million in principal amount of additional debentures (the “Additional Debentures”) on the same terms and conditions as the Original Debentures, except that the conversion price on the Additional Debentures may have a higher floor. In conjunction with the purchase of the Additional Debentures, the Investors also have the right to purchase additional warrants. The full terms of the transactions with Gemini and Ascendant are set forth in the transaction agreements, copies of which are filed with this 10-K as Exhibits 10.1 through 10.10.

## 15. STOCK OPTIONS

### Description of Stock Option Plan

On April 29, 2011, the 2011 Stock Incentive Plan was approved at the Annual Stockholder Meeting. The Company has 6,100,000 options to purchase common stock available to issue under the 2011 Stock Incentive Plan.

### Determining Fair Value Under ASC 505

The Company records compensation expense associated with stock options and other equity-based compensation using the Black-Scholes-Merton option valuation model for estimating fair value of stock options granted under our plan. The Company amortizes the fair value of stock options on a ratable basis over the requisite service periods, which are generally the vesting periods. The expected life of awards granted represents the period of time that they are expected to be outstanding. The Company estimates the volatility of our common stock based on the historical volatility of its own common stock over the most recent period corresponding with the estimated expected life of the award. The Company bases the risk-free interest rate used in the Black Scholes-Merton option valuation model on the implied yield currently available on U.S. Treasury zero-coupon issues with an equivalent remaining term equal to the expected life of the award. The Company has not paid any cash dividends on our common stock and does not anticipate paying any cash dividends in the foreseeable future. Consequently, the Company uses an expected dividend yield of zero in the Black-Scholes-Merton option valuation model and adjusts share-based compensation for changes to the estimate of expected equity award forfeitures based on actual forfeiture experience. The effect of adjusting the forfeiture rate is recognized in the period the forfeiture estimate is changed.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

Section 382 of the Internal Revenue Code generally imposes an annual limitation on the amount of net operating loss carryforwards that may be used to offset taxable income when a corporation has undergone significant changes in its stock ownership. There can be no assurance that the Company will be able to utilize any net operating loss carryforwards in the future.

For the year ended September 30, 2012, the Company's effective tax rate differs from the federal statutory rate principally due to net operating losses and warrants issued for services.

The principal components of the Company's deferred tax assets at September 30, 2012 are as follows:

	2012	2011
U.S. operations loss carry forward at statutory rate of 42.6%	\$ (1,163,832)	\$ (1,151,090)
Less Valuation Allowance	1,163,832	1,151,090
Net Deferred Tax Assets	-	-

**Item 14. Indemnification of Directors and Officers**

Under Nevada law, a corporation may include in its articles of incorporation (“Articles”) a provision that eliminates or limits the personal liability of a director to the corporation or its stockholders for monetary damages for breach of fiduciary duties as a director, but no such provision may eliminate or limit the liability of a director (a) for any breach of his fiduciary duty as a director, (b) for acts or omissions not in good faith or that involve intentional misconduct, fraud or a knowing violation of law, (c) for conduct violating the Nevada General Corporation Law, or (d) for any transaction from which the director will personally receive a benefit in money, property or services to which the director is not legally entitled.

Section 78.7502 of the Nevada Revised Statutes or NRS provides, in general, that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, except an action by or in the right of the corporation, by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with the action, suit or proceeding if the person acted in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe the conduct was unlawful.

NRS Section 78.4502 also provides, in general, that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses, including amounts paid in settlement and attorneys' fees actually and reasonably incurred by the person in connection with the defense or settlement of the action or suit if the person acted in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the corporation; provided, however, that indemnification may not be made for any claim, issue or matter as to which such a person has been adjudged by a court of competent jurisdiction, after exhaustion of all appeals therefrom, to be liable to the corporation or for amounts paid in settlement to the corporation, unless and only to the extent that the court in which the action or suit was brought or other court of competent jurisdiction determines upon application that in view of all the circumstances of the case, the person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

Any indemnification pursuant to the above provisions may be made by the corporation only as authorized in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances. The determination must be made: (a) by the stockholders; (b) by the Board of Directors by majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding; (c) if a majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding so orders, by independent legal counsel in a written opinion; or (d) if a quorum consisting of directors who were not parties to the action, suit or proceeding cannot be obtained, by independent legal counsel in a written opinion.

Under Article X of the Company's Amended and Restated Articles of Incorporation, the personal liability of all its directors is eliminated to the fullest extent allowed by Nevada law. In addition, a director shall not be personally liable to the corporation or its stockholders for monetary damages for conduct as a director, except for liability (a) for acts or omissions that involve intentional misconduct or a knowing violation of law; (b) for conducting violating the Nevada General Corporation Law; or (c) for any transaction from which the director will personally receive a benefit in money, property or services to which the director is not legally entitled.

Article XI of the Articles of Incorporation also provides for indemnification of the Company's directors and officers, and authorizes the Company to purchase and maintain insurance or make other financial arrangements on behalf of any director, officer, agent or employee of the corporation, for any liability asserted against him and for expenses incurred by him in his capacity as a director, officer, employee or agent, arising out of his status as such, whether or not the corporation has the authority to indemnify him against such liability and expenses.

The Company has a directors' and officers' liability insurance policy in place pursuant to which its directors and officers are insured against certain liabilities, including certain liabilities under the Securities Act of 1933, as amended and the Securities and Exchange Act of 1934, as amended.

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this Registration Statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the SEC pursuant to Rule 424(b), if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

(i) If the registrant is relying on Rule 430B:

(A) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. *Provided, however*, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; or

(ii) If the registrant is subject to Rule 430C, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. *Provided, however*, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

(5) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities: The undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- (iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
- (iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that, in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

RE: Registration Statement on Form S-1

Gentlemen:

We have acted as counsel to Visualant, Inc. (the "Company") in connection with the Registration Statement on Form S-1, filed with the U.S. Securities and Exchange Commission (the "Commission") on August 16, 2013 (the "Registration Statement") covering: (a) 34,300,000 shares of common stock issuable upon the exercise of a portion of the five year Series A Warrants (the "Series A Warrants") issued to Special Situations Technology Funds, L.P. and forty other accredited investors (collectively, the "Investors") at \$0.15 per share pursuant to a private placement undertaken by the Company, which offering closed on June 14, 2013; (b) 52,300,000 shares of common stock issuable upon the exercise of five year Series B Warrants (the "Series B Warrants") issued to the Investors at \$0.20 per share issued as part of the aforesaid private placement; and (c) 5,230,000 shares of common stock issuable upon the exercise of five year placement agent warrants (the "Placement Agent Warrants") issued to GVC Capital LLC or affiliated parties (collectively, "GVC") at \$0.10 per share as part of the aforesaid private placement. All 91,830,000 of the aforesaid shares of common stock (collectively, the "Shares") are being registered in connection with the proposed sale of the Shares by the Investors and GVC (the "Selling Stockholders") listed in the Registration Statement.

In connection with this opinion, we have assumed that the Shares that are issuable upon exercise of the Series A Warrants, the Series B Warrants and the Placement Agent Warrants will be issued in the manner described in the Registration Statement and the prospectus relating thereto.

In connection with this opinion we have reviewed the proceedings of the Board of Directors of the Company relating to the registration and issuance of the Shares, the Company's Amended and Restated Articles of Incorporation dated March 21, 2013 as filed with the Nevada Secretary of State on April 30, 2013, the amendment to the Company's Articles of Incorporation as filed with the Nevada Secretary of State on August 12, 2013, the Bylaws of the Company and all amendments thereto, and such other documents and matters as we have deemed necessary as a basis for this opinion.

---

Based upon the foregoing, we are of the opinion that:

- (a) The 34,300,000 Shares, when issued upon exercise of the Company's Series A Warrants granted to the Investors, will be legally issued, fully paid, and nonassessable;
- (b) The 52,300,000 Shares, when issued upon exercise of the Company's Series B Warrants granted to the Investors, will be legally issued, fully paid, and nonassessable;  
and
- (c) The 5,230,000 Shares, when issued upon exercise of the Company's Placement Agent Warrants granted to GVC, will be legally issued, fully paid, and nonassessable.

We do not find it necessary for the purposes of this opinion to cover, and accordingly we express no opinion as to, the application of the securities or blue sky laws of the various states as to the issuance and sale of the Shares.

We consent to the use of this opinion as an exhibit to the Registration Statement filed with the Commission in connection with the registration of the Shares and to the reference to our firm in the Registration Statement.

Very truly yours,

/s/ Fifth Avenue Law Group, PLLC
